Uprising Is Feared in Algeria.

Moors Employed in Tlemcen Iron Mine Strike and Threaten Europeans.

Their Action Directly Due to Outbreak Centering at Casa Blanca.

France Plans to Send Reinforcements in Response to Urgent Appeals.

BY DIRECT WIRE TO THE TIMES]

PARIS, Aug. 22.—[Exclusive Dispatch.] There is danger of the holy war becoming general, not only in Morocco, but spreading among Mohammedans throughout Northern Africa.

From Algeria today comes the report that a thousand Moors employed in the iron mines near Tlemcen went out on a strike, paraded the streets and threatened the European residents.

The Mayor of Tlemcen asked the military authorities to distribute arms to citizens for defense against Moors.

It is strongly suspected that the strike is directly due to the holy war of the Moors now centering at Casa Blanca.

Moors everywhere are displaying the greatest uneasiness, and fears are entertained that the outbreak will become general.

FRANCE HAS FREE HAND.

Premier Clemenceau's frank admission that he talked over the Moroccan situation with King Edward at Marmaris causes considerable comment here, since the tensor of such a conversation could not be doubtful and the fact of its having taken place is regarded as a guarantee that there is no present likelihood of France being disturbed by other European powers in pursuing its policy in Morocco. But this is the only agreeable sign on the horizon, for Gen. Drude's further call for reinforcements coincides with reports which apparently are not without partial confirmation, that 15,000 mounted Arabs are on the way to Casa Blanca under Muhammed Al-Hafid, who has been proclaimed Sultan.

It is suspected that there is danger of a holy war being proclaimed. This is what is occupying France's attention at the present moment. All the military critics point out that the force under Gen. Drude is ridiculously weak, particularly during the rainy season, which is about to begin, the war vessels will be less useful, since they will be unable to remain moored in the harbors, and thus the Arabs can attack the coast towns with impunity unless there is a formidable French force on land.

MAY GO AFTER MOORS.

There is a strong belief in military circles today that an expedition into the interior is being rapidly prepared, as, in addition to the reinforcements sent today, there have been shipped several hundred mules and two batteries of artillery.

While deciding that the international accord is perfect, part of the naval still calls attention to the inactivity of the Spaniards. One dispatch quotes Gen. Drude as saying yesterday: "It is impossible to dislodge the enemy without 15,000 more men, since the Spaniards refuse all participation."

It is officially announced that Gen. Drude will shortly have 5,000 men to insure the protection of Casa Blanca, with further reinforcements ready to embark for Morocco. The government reiterated its firmness in crying out, "This is not regarded as a comment." The cruiser, which last reported from Callao, Peru, on August 15, is due to sail from Acapulco on August 26, and to arrive in San Francisco on September 12.

She will be the first of the new Pacific fleet to reach that port. The Washington and Tennessee will follow shortly.

OBJECTS TO HUSBAND'S ROOTING.

Wife Has Spouse Brought in Court Because He Dreamed of Baseball, But Judge Commands Him.

BY DIRECT WIRE TO THE TIMES]

CASA BLANCA, Aug. 22.—[Exclusive Dispatch.] The whole trouble is, judge, my wife is sore on me because I'm a regular member of the Rooters' Club. I like to go to ball games on Saturday and when I come home she starts in."

So spoke Adolph Marshutz of No. 58 Mulberry street, Newark, N. J., when arraigned today before Justice Howell charged with wife-beating.

"What have you to say to that, Madam?"

"He's telling you the truth," said Mrs. Marshutz, "and I want you to keep him off the bleachers. He calls balls and strikes in his sleep and pulls the clothes off us when he starts dreaming of baseball."

"I earn \$18 a week and I give it all to her," Adolph proudly boasted.

"She gives me a dollar and I go to the ball game and enjoy myself."

"Your husband seems to be a pretty good one," said Justice Howell.

"He has a perfect right to go to games and I would stop him if I could."

"Batter up," called the billfiff, as Adolph and his wife started on a home run.

RECKLESS COURAGE SHOWN BY ARABS.

BY THE ASSOCIATED PRESS—P.M.]

CASA BLANCA, Aug. 22.—Twelve Frenchmen were wounded during the nighting of yesterday morning. They include Capt. Dutelles of the Foreign Legion.

A battery of seventy-five millimeter guns were disembarked from a transport and used shrapnel with tremendous effect upon the enemy.

The Arabs showed reckless courage. They would ride close to the French camp, dismount and fire persistently until they were dispersed by the shell fire from the cruiser Glorie. The cruiser Guydon has bombarded the port of Fidallah, to the north of Casa Blanca, where the smugglers of arms had their headquarters.

CITIZENS FIGHT FOR TREES.

Stockton Property Owners Up in Arms
Over Mutation of Shade-givers
by Electric Companies.

[BY DIRECT WIRE TO THE TIMES.]
STOCKTON, Aug. 22.—[Exclusive
Dispatch.] A bitter war that will be
fought out in the courts has resulted
from the mutation of shade trees
along the main streets in this city by
the power and electrical companies.
The City Park Commission has de-
cided it had control over all shade
trees on sidewalks and street spaces
and the Stockton Arbor Club has sup-
ported this stand.

The funeral services will be held to-
morrow at Von Bredow's Berlin resi-
dence. The funeral service Saturday
at the Von Bredow family seat.

Crushed Between Cars.

REDDING, Aug. 22.—Joseph Smith,
a brakeman on the McCloud River
Railroad, was caught between two
cars last night while coupling and
knocked onto the saw. His head and
face were badly crushed and his arm,
leg and body were cut and torn by the
train. It is feared he will die.

Second Death at Dam.

PHOENIX (Ariz.) Aug. 22.—J. C.
Broughton, a stationary engineer, was
killed yesterday at the Roosevelt dam
by a falling derrick. He had a fam-
ily, resident in Alabama. His was the
second death through an accident at
the place.

Irrigation Congress Delegates.

PHOENIX (Ariz.) Aug. 22.—Gov.
Kibbey today appointed the following
delegates to the national congress to
be held in Sacramento, Cal., in Sep-
tember: S. B. Wilkinson, J. Orme, El-
liott; Francis Charles Goldman, C. H.
H. Chetwynd, J. M. Moore; A.
Chandler, A. J. Keay; Messrs. Charles
F. Solomon, Andrew Kimball, A. Bol-
ton, Stafford; A. L. Demund, A. P.
Kant, Yuma; William Miller, Jerome;
Gov. B. K. Kibbey, who is keenly inter-
ested in southwestern irrigation problems,
will accompany the delegation.

Meats Double Accident.

REDDING, Aug. 22.—Ben McCrum,
at the Dirico sawmill near Estella, to-
day was caught by a falling tree and
knocked onto the saw. His head and
face were badly crushed and his arm,
leg and body were cut and torn by the
train. It is feared he will die.

Flash Shaved Off.

REDDING, Aug. 22.—O. S. Payne, an
employee of the Pioneer Box Factory,
at Sisson, was struck on the hand by
a flying board today. The flesh from
the fingers to the elbow was shaved off.

Hawaiian Team Arrives.

SAN FRANCISCO, Aug. 22.—The
Hawaiian team of eighteen sharp-
shooters that will compete in the Na-
tional Championships at the National
Rivers and Harbor Com-
missioner's office, San Francisco,
yesterday arrived here. The team is com-
posed of Maj. William R. Riley, and is composed of the
best marksmen stationed in the islands.

Fathers Loss by Fire.

MOUNT ANGEL (Or.) Aug. 22.—Late
Tuesday fire destroyed the flouring mill,
water plant and heating plant, belong-
ing to the Benedictine Fathers. Only
half of the citizens escaped. Only
two former robbers were taken place, working up
the certain that the sacks
were in transit from the
several men are under
arrest. Some have been
arrested. Some are scarce.
The main point of interest
is the man for sending out
of mail containing the

jury, which was recently called to inquire
into the death of Miss Annie
Clark, who was to hang August 26,
returned verdict of murder against Dr. C. L. De Vinny.

express companies, as they previous-
ly did, because of the increased tariff.
The present trouble has existed. It
will necessitate the employment of
guards by the government to watch the
gold shipments.

As the mail have been practically
unprotected up to date, robberies have
been easy, and it is believed that the
thefts have resulted from systematic
operations of bandits working with
well-laid plans.

FIGHTING WHITE FLY.

Ground on Stockdale Ranch Covered
With Dead Pests After Trees Are
Fumigated.

(BY THE ASSOCIATED PRESS—P.M.)

BAKERSFIELD, Aug. 22.—Laboring
for almost a week, the entomologists
of the State Commission of Horticulture
have almost completed the fumigation of the citrus trees infected by
the white fly on William S. Tevis's
Stockdale ranch, near this city.

The ground under the trees fumi-
gated with white fly.

fumigation tents have been kept busy
since the entomologists have com-
menced their work, and now, allowing
the vapor to work on each tree about
an hour at a time, nearly all of the
affected trees have been treated. It is
believed that tonight will see the
eggs hatch out in a new generation of
the insects, or other trees are found
which have not yet been treated.

Edward K. Carnes, in charge of the
work, leaves for Marysville, where he
will continue the campaign against
the pest in that section. Stephen
Strong, an expert on insect eradication,
has recently been engaged to help
white flies in Florida, has been detailed
to remain in Bakersfield to guard
against an outbreak. L. Wogurn of
Washington, D. C., with Commissioners
E. H. Ehrhorn, Pearson, and Rosen,
composes the local quarantine
commissioners.

Investigation has failed to find that
the pest has spread in any direction to
date. Stockdale is thoroughly quar-
antined.

SHOW BUSINESS TREND.

**OPINIONS ON
"THIRD TERM."**

*Stuyvesant Fish and Col.
Harvey Expressive.*

*No Real Objection, Except
Sentiment, Is Seen.*

*Editor Declares "Famous
Written Pledge" Is Bar.*

[BY DIRECT WIRE TO THE TIMES.]

NEW YORK, Aug. 22.—[Exclusive Dispatch.] Stuyvesant Fish thinks there is no real objection against a "third term" for President Wilson of the United States, when sentiment is left out of the question and Col. George Harvey, editor of Harper's Weekly, believes there is none, beyond tradition, except President Roosevelt's "famous written pledge," for which his countrymen are becoming more and more grateful.

These expressions of opinion were elicited in response to a question put by a New York newspaper, as follows:

"Without considering mere sentiment, is there really any exact reason or logic against a third term for a President of the United States, particularly when the first term was a vacancy filled as Vice-President, thus making a third term really a second term? Will it not be better if a President is elected by the people?"

Mr. Stuyvesant Fish replied:

"Allow me to strip the question of the final clause referring to the President's first term having been a vacancy filled by him as Vice-President and let it stand as follows: 'Without considering mere sentiment, is there really any basis of exact reason or logic against a third term for a President of the United States?'"

"Answering the question thus put, and without the slightest regard to the reason, I would say that any individual holding the office, it is to me perfectly clear that, while there are grave objections against any President of the United States being immediately re-elected for a second term, I can see no reason why, if this is allowed, the election of a competent, upright and efficient President for a third term can be objected to."

Col. Harvey holds his opinion on "gratitude," he says:

"I perceive little basis of exact reason or logic against a third term other than (1) the implied pledge of the republic to resist any tendency toward autocracy; and (2) considerations of the effect of the constantly-increasing mental and physical strain upon the incumbent. Otherwise it is chiefly a matter of policy. From this viewpoint the tradition seems to me distinctly worthy of preservation. Whether it would be rigidly observed in the case of a Vice-President succeeding to the position obviously depends upon circumstances."

"For example, he should have served only a few months of the time for which his predecessor was chosen, there would be no sound basis for regarding, so brief a tenure as a first term; but if he should have served another two years, say, clearly his occupancy would all within the province of the tradition. This was the view expressed by President Roosevelt in the famous written pledge for which his countrymen are becoming more and more grateful."

NOT ALL FOR TAFT.

**DECLARAS TAFT.
IS "MERE ECHO."**

PHILADELPHIA MAYOR HEAPS SCORN ON CANDIDATE.

"Secretary's Speech the Weakest I Ever Heard, Absolutely Without Individuality," Announces Return-Administration Policies Also Attacked.

[BY DIRECT WIRE TO THE TIMES.]

PHILADELPHIA, Aug. 22.—[Exclusive Dispatch.] The Republican organization of Pennsylvania is having trouble with Mayor Reyburn of Philadelphia, who refuses to get into the band wagon for the national administration.

Last spring the Mayor pained the "regulars," who had elected him, by some remarks concerning the Roosevelt policies, and today, incited by the President's speech at Provincetown, he reiterated his attack in statement to the Philadelphia papers.

The Mayor was very much wrought up. He heaped scorn upon Secretary Taft as a "mere echo" of the President and denounced the whole administration policy on control of corporations and regulation of railroads.

A few days after he was inaugurated, Mayor Reyburn bitterly assailed the Roosevelt policies. This was at a dinner given by the Young Republicans to Gov. Edwin S. Stuart. Today he was more explicit.

Of Secretary Taft's speech he said:

"I think it was one of the weakest I have ever read. It was absolutely without individuality. It was simply a echo of the policy of some one else. People today want individuality, and no man has opinions of their own. Now, do I make myself clear? If not, let's get at it."

Here the Mayor admitted that what he meant was that President Roosevelt was trying to secure for Secretary Taft the Republican nomination for President.

[BY DIRECT WIRE TO THE TIMES.]

LEXINGTON (Ky.) Aug. 22.—[Exclusive Dispatch.] Secretary of the Interior, James R. Garfield, enjoyed a splendid appetite after traveling all night to meet Secretary Taft on the summons of the latter, at J. B. Haggin's Elmsford farm.

For breakfast he disposed of the following: Three squabs, four soft boiled eggs, seven rashers of bacon and potatoes, five light rolls, seven best biscuits, one cantaloupe, a dozen waffles and five cups of coffee.

OFFICER IN TROUBLE.

Deputy Sheriff Exonerated for Killing Man Arrested on Charge of Murder.

[BY THE ASSOCIATED PRESS—P.M.] TONOPAH (Nev.) Aug. 22.—Deputy Sheriff C. L. Emerson of Atwood shot and killed Joe Lafeur last Sunday morning. On Sunday afternoon a Coroner's jury exonerated the officer. Emerson was arrested tonight at Mine on a charge of murder. The warrant was issued by Asst. Dist.-Atty. Cleve Baker of this city. Three of the Coroner's jury who examined the officer signed a petition for the release of the man in the case.

To this petition are added the names of sixty-five other prominent men of Atwood and Goldyke, who declare that new evidence has been discovered that warrants the trial of Lafeur, according to the testimony of the Deputy Sheriff, would not hold out his hands to be handcuffed, but kept them in his pockets. A scuffle ensued, and the shooting followed.

WARNING NOTE.**SEES MENACE IN CHANGED SYSTEM.****MCALL DEPLORES GROWTH OF POWERS OF EXECUTIVES.**

Massachusetts Congressman Declares Old Laws Should Be Enforced Instead of Clamor Raised for New Ones—Says Rate Bill Will Injure Country.

[BY THE ASSOCIATED PRESS—A.M.] MARSHFIELD (Mass.) Aug. 22.—The so-called "extension of executive authority" was strongly deprecated in an address delivered by Congressman Samuel McCall this afternoon at the Marshfield Fair Grounds.

Referring to the recent government prosecutions, he said that the fine of the Standard Oil Company for the offense of accepting a discriminating probably was not greatly exceeded by all the other fines imposed in the Federal courts since the establishment of the government.

Mr. McCall asked why the old laws were not enforced rather than new ones demanded, and pointed out that at the time when Congress was asked to confer upon an executive department power to fix rates, the act upon the statute-book, the very act against rebates and discriminations under which this \$20,000,000 fine was imposed.

"The practice in the government," said Mr. McCall, "of expending the maximum of new and disturbance to secure the minimum of good may be diverting, but it is costly. I believe that the Populist agitation started by the rate bill far more than the legislation which resulted therefrom, has financially and industrially injured the country."

BILL MAGNIFIES POWER.

"If a similar public sentiment had been created sixty years ago, many of our great Commonwealths would today be unsettled areas. The effect of the rate bill will be that of augmenting the executive power beyond all bounds."

"The tendency of the times appears to centralize all power in Washington and then to have it all exercised by one man. I say, let the people keep all the governmental power; not necessarily in Washington."

NEW YORK RAISES INTEREST.

NEW YORK, Aug. 22.—Owing to the money stringency, the city has been obliged to raise the rate of interest on the bonds it offered from 4 to 6 per cent.

"The tendency of the times appears to centralize all power in Washington and then to have it all exercised by one man. I say, let the people keep all the governmental power; not necessarily in Washington."

WHEAT PRICES ADVANCE.

TOLEDO, Aug. 22.—Wheat rose 4 cents today, as a result of the reports of frosts in Northwestern Canada. The damage, however, is regarded as light.

THE RACE QUESTION.**"NEGRO IS AMERICAN,"
SAYS SECRETARY TAFT.**

Speech on Race Question, at Lexington, Ky., Is Wildly Cheered by Vast Crowd of Republicans and Democrats.

[BY DIRECT WIRE TO THE TIMES.]

LEXINGTON (Ky.) Aug. 22.—[Exclusive Dispatch.] The Negro is an American. He has no other country than this, and can have no other country than this. The South is the South, the North is the North. The Southerner understands his defects; he knows his virtues, and if the Negro responds to the opportunities for improvement as Booker Washington does, he will grow in the estimation of his fellow-citizens of the South, and that the great problem which has burdened the South with its race issue will largely be solved."

Speaking on the Fifteenth Amendment, Mr. Taft said:

"The Fifteenth Amendment does not require that every negro should vote. All that it requires is that he should not be excluded from voting because he is black. It provides that he shall have the same qualifications, property qualifications, or any other qualifications that the State may lawfully impose as a rule of eligibility for its voters, then he may be excluded, provided that every one else who lacks similar qualifications is also excluded."

The Fifteenth Amendment is merely intended to secure him in his political rights from race discrimination by the states. It is not intended to give him affirmative privilege, but it does not involve an amalgamation of the races; has nothing to do with social association or equality.

NOT NEGRO DOMINATIONS.

"It does not involve so-called negro domination, and to permit the question at this late day, forty years after the war—to control the votes of intelligent men in respect to issues that are living and that affect their welfare is to indicate on their part a lack of proportion, which I cannot think will continue to manifest itself among the voters of the South in the race question."

We are apt to forget this real improvement in the diatribes that we occasionally hear from those who do not have a lack of sympathy with the progress of the black race, and who lose themselves in denunciation of the entire race on account of a comparatively small criminal class that formed the dregs of the southern population.

NEGRO IS NECESSARY.

"The negro is necessary to the South as a laborer, skilled and unskilled. The South could not get along without him. The world over, there is a demand for labor, and were the negro to be withdrawn from the South the difficulties agriculture would suffer under can hardly be overestimated."

"The negro is an American. He has no other country than this, and can have no other country than this, and is called upon to defend it he lays down his life with the same freedom that white man defends his."

Ours is the first love, the only one he knows. It is our duty to see to it that his path is made as easy as we can and that his progress is as incentive as proper encouragement can make it. His best friend, the one that

cares to the preservation of unity and safety."

"We are liable, some day, to have a President who is egotistic, impulsive, of immature judgment and a heedless glutton for momentary applause. If he be autocratic, such for the time will our country be. Instead of a truly mighty nation, we may have a strutting, garrulous, meddling America."

"We must adhere, then, to the representative government of the fathers, the only kind which from the foundation of the world, has cherished human freedom."

Col. W. Lawson, president of the fair association and Gen. Bartlett, Democratic candidate for Governor, also spoke.

**PROMISE TO BE GOOD
WHEN TAUGHT LESSON.**

[BY DIRECT WIRE TO THE TIMES.] NEW YORK, Aug. 22.—[Exclusive Dispatch.] "The attitude of the Standard Oil men will be to ask what the law is, and when they have learned it they will obey it."

This statement regarding the coming hearing in this city of testimony in the St. Louis case to dissolve the oil trust was made to reporters today by a man in a position to know the Standard Oil attitude.

The Standard Oil men appear to be awaiting with equanimity the hearings which are scheduled to begin September 3. They predict that there will be no such sensational developments as marked the recent government inquiry into the Harriman railroad situation. Frank E. Kellogg, special counsel for the government, who has been retained to represent the Interstate Commerce Commission at the Harriman inquiry, is expected to arrive soon to make arrangements for the taking of testimony.

CRISIS CAUSE EXPLAINED.

Too Rapid Railroad, Industrial and Commercial Development, Says Jacob Schiff.

[BY THE ASSOCIATED PRESS—A.M.] NEW YORK, Aug. 22.—Jacob Schiff says that to blame the administration for the present financial difficulties is both thoughtless and unjust.

Schiff attributes the crisis to rapid railroad, industrial and commercial development. He says we must remember that the Russo-Japanese War and the San Francisco earthquake and fire destroyed an enormous amount of wealth, which sooner or later had to be replaced. Immediately attention also has been given to the fact that both Japan and China have entered into competition for the world's surplus capital.

He said the only remedy would be a temporary reduction of activities until capital and credit facilities reached a point sufficient for the volume of business.

CHOLERA IN SHANGHAI.

BERLIN, Aug. 22.—A Shanghai special says that cholera has broken out in the Chinese quarter, and several persons have succumbed thereto. Preventative measures have been adopted in the foreign quarters. Several Chinese and Japanese towns are affected, but the spread of the disease through ocean steamers is regarded as improbable.

COFFEE**About That Autumn Suit**

RAILROAD RECORD.

FRISCO NOW ESPEE RIVAL.

Leave Just Signed Gives Route to Denver.

Colorado and Southern, New Orleans and Pacific.

Twelve-hour Crescent City-Houston Schedule.

BY DIRECT WIRE TO THE TIMES.

CHICAGO, Aug. 22.—[Exclusive Dispatch.] The ratification of a long-term lease to the Frisco system by the stockholders of the Colorado Southern, New Orleans and Pacific, by the terms of which the road practically loses its identity, is a formal transfer of all the projects promoted by the builders and provided for when the line was first conceived. It gives the Frisco 500 miles of road already completed and in first-class condition.

The main line of the road runs from New Orleans to Houston, Tex., and it is expected that the Frisco will be operating trains between Denver and Crescent City by January next, which will place a strong competitor for the Southern Pacific in the field.

It is probable a joint trackage agreement will be entered into with the Yucatan and Mexican Valley road, which runs between New Orleans and Baton Rouge, and that the line of the Frisco will be double-tracked in order to meet the requirements of the added service.

Having almost a straight line, it is the intention of the Frisco to establish express service between Houston and New Orleans on a forty-five-mile-an-hour schedule, making the run in less than twelve hours.

FIELD GUNS DRIVE MOORS FROM THE CITY.

[BY DIRECT WIRE TO THE TIMES.] CASA BLanca, Aug. 22.—[Exclusive Dispatch.] During another reckless attack on Casa Blanca by the Arabs yesterday morning twelve Frenchmen were severely wounded, including Capt. Debelles of the foreign legion.

The Fifteenth Amendment is merely intended to secure him in his political rights from race discrimination by the states. It is not intended to give him affirmative privilege, but it does not involve an amalgamation of the races; has nothing to do with social association or equality.

NOT NEGRO DOMINATIONS.

"It does not involve so-called negro domination, and to permit the question at this late day, forty years after the war—to control the votes of intelligent men in respect to issues that are living and that affect their welfare is to indicate on their part a lack of proportion, which I cannot think will continue to manifest itself among the voters of the South in the race question."

We are apt to forget this real improvement in the diatribes that we occasionally hear from those who do not have a lack of sympathy with the progress of the black race, and who lose themselves in denunciation of the entire race on account of a comparatively small criminal class that formed the dregs of the southern population.

NEGRO IS NECESSARY.

"The negro is necessary to the South as a laborer, skilled and unskilled. The South could not get along without him. The world over, there is a demand for labor, and were the negro to be withdrawn from the South the difficulties agriculture would suffer under can hardly be overestimated."

**JUD SMITH
OUT OF GAME.****Breaks Left Shoulder Blade
in Collision.****May Not Play Baseball Again
This Season.****Red Randolph Blanks Beav-
ers Easly.**

Los Angeles, 4; Portland, 6.
Jud Smith, the dentist-third baseman of the Looches, made a hurry-up trip to the California Hospital yesterday afternoon from the ball grounds and will be out of commission for a month or more on account of a broken shoulder blade, as the result of collision with Burdette of the Portland team.

This bad accident happened in the first inning of the game and not one hundred fans of the 2000 that saw the contest, knew that Smith was in the hospital being operated on before the first inning was over. He showed no effects of the accident as he walked in from the field but an examination proved that he was injured.

Casey Donahue then came to bat and after fanning around for a few minutes, easily struck out. Burdette started to steal to third base on the third strike and as Hogan caught the ball, he whipped it down to Jud Smith at third. The throw was a trifling one and Smith stuck out his gloved left hand to catch it. As he did so, he caught it, Burdette came charging in from behind and tried to impale himself on Smith's left arm. He didn't do it, but as succeeded in breaking Smith's collarbone on the bone, but although badly hurt, Smith had the satisfaction of having figured in a pretty double play before making his retirement from the game, for what must be the balance of the season.

Gordon Manager. Hon. Bert Gordon, a hard trade of Carnes for Red Randolph. Some of the fans thought the manager with the large forehead was crazy, but Randolph had the Beavers standing on their heads yesterday for he allowed but three of them to get to third base and the six singles that were made off him were scattered through as many innings. He struck out but two, but when some of the others needed a swat, they couldn't find one.

Speaking about pitchers, the locals trimmed Pernoll to a seamny frizzles and worked him for four sacrifice hits in addition to the twelve swats. Fay helped along with two errors just at the right time and the way things turned out the Beavers were as easy ones. Pernoll did fine work at times and the third inning shows this, for in that round he gave three passes and he was touched for a sacrifice hit, and yet no runs came in.

There was nothing surprising about the game, but it was another day and the big crowd of fair fans found something to yell about, for the Looches started away in the lead and stayed there. Carlisle made a pretty running catch in the field and also made the benches once after a foul and in the last of the eighth Atherton distinguished himself with a Chaise-like pick-up of a grounder near the plate and a throw to third base caught Hogan, who was running his head off from another foul. Carlisle then came in the game at second with his sore, puffed hand and played beautiful ball. Nagle replaced Smith at third base in the second inning and banged the ball hard.

**"BOSTON OR BUST."**
**CROSS-COUNTRY
AUTOIST BACK.****PROF. CHANDLER RETURNS TO CLAREMONT.**

William Renwick, With Whom He Started on Transcontinental Trip, Is at Ogden, and Will Resume His Los Angeles to Boston Journey Next Week.

(SPECIAL CORRESPONDENCE OF THE TIMES.)

CLAREMONT, Aug. 22.—Prof. E. E. Chandler, who started on the automobile trip to Boston with William Renwick, returned last night.

Renwick made a spectacular departure from Los Angeles on July 22. Having graduated from Pomona College, he was about to enter Yale, and decided to go by automobile, taking with him Prof. E. E. Chandler for companion.

Renwick, who had previously made several record-breaking auto runs, left Los Angeles with Prof. Chandler on July 23, in an Olds machine, and the couple were well equipped for the long and tedious journey. Renwick, as on one of his former appearances in public, looked like a walking archeologist, his matted hair, beard and mustache forbidding to the eyes of all infidels and "Christian dogs."

Strange as it may seem, a copy of "World Without End," written by Miss Graham, was published a few months ago. One of its most interesting features is a detailed and picturesque description of the historic shrine of Mecca, a Moslem shrine.

This Mohammedan code of honor is strictly forbidden to the eyes of all infidels and "Christian dogs."

Renwick was indisposed when Ogden, Utah, was reached late last Saturday, August 17, and left his auto for repairs, while he went to visit friends in South Dakota, to recuperate.

Prof. Chandler, whose vacation soon expires, decided to return by rail, reaching here last night. He reports that the trip was unusually smooth.

DEATH HOLDS SCALES.
LIVES HANG IN THE BALANCE.
SILENT OPERATIONS INTEREST HOSPITAL SURGEONS.

Bells May Triumph Over Death in Two Curious Cases—One Chance in a Thousand for Poor Mexican, while Philippine Soldier Will Probably Recover—Proceeds.

Two Tree are hanging in the balance in one of the wards over at the County Hospital; and the next few days will determine whether the most delicate of surgical operations will be able to triumph over death.

There are but two of the never-ending battles against the Grim Reaper, which are waged at the rambling pile of brick and frame buildings out on Broad; but they are being fought with peculiar interest because of the rarity of such cases and the nature of their treatment.

This is a monster affair, in the building variety, in which the patient's condition has been residing in facilities for the past five years, since he was injured by falling from a San Pedro, where he was working about two years ago.

The other case is that of a man who is serving in the Spanish War, having emerged in both the Cuban and Philippine campaigns, and who is victim of a chronic amoebic dysentery of several years' standing, contracted in the government service, and which has been aggravated through the verminous means by means of a silver tube.

General Rodriguez is the Mexican general who presents the peculiar phase of this case.

This is a mortal ailment, and the surgeon has always led the physician at the County Hospital to believe that the man can only live six months, and this week they will attempt a delicate operation, the like of which is seldom seen in the South.

Operations will be made in the arm through which it may be detected, a spiral coil of fine silver wire, full length of the distended coat.

The internal or middle coat of the intestines have become ruptured and those which are exterior to the coils have become sutured as to offer a rare sight.

It is expected that after the spiral coil has been worked into place there will be inserted into the body a catheter with the injection of choice professional terms.

General remains the same, with the one chance of life.

At 10 a.m. No. 217 North Chile is the other patient whose special interest. He was won yesterday morning by the superintendent of the

ROON FOR NURSES.

A new wing is to be built to the nurse's building. It will be similar in design and size to the present building, and will stand to the northeast of that structure. The two will be connected by a corridor, and in the space between these wings there will be erected a dining-room. This is to be a one-story building, with a single floor roof. The walls will be capped with a rustic railing, and the place will be turned into a roof garden, while the concrete porch in front of the entire space between the two wings will be built in the pergola style, with eucalyptus timbers to be used for the air shafts.

While the hospital management always expects a rush of patients during the time of the greatest tourist travel, through the dumping into this community of many unfortunate who should never have left their homes, a surprise was in store for this month. August was unusually quiet, without a hint of breaking the record for numbers.

As a general rule, August's record is a light one; but on the ninth day of this month there were 203 patients in the hospital. It was also a record-breaker, though the number was not the least of the difficulty, before it had been impossible to treat the amoebic disease.

Similar cases have been reported in history of the County Hospital, but none of them were successful. The man made an astonishing recovery and gained a pound a day during that period. His weight reached forty pounds before leaving the hospital.

WANDERING WIFE.

TOMES FAR ON SPOUSE HUNT.

SEARCHING RAILROADER IN QUEST OF DEPARTED MATE.

Mr. Laramie Home That Is to Have Been Happy and Let-the-Wife-Indicates That Mrs. Laramie Has Employment in Los Angeles.

A Higgins, a railroad man of La-

Los Angeles, arrived in Los Angeles early morning in search of his wife, Mrs. Higgins, who disappeared from her home on August 14, a letter sent by his wife to a friend in Los Angeles, but no answer was given and he has come to the Wind up of finding her.

Mrs. Higgins stated that she left Los Angeles and reached Los Angeles and was with a widow. She wrote to find employment as a maid in one of the stores. The letter was sent to Station "A," the address of the missing.

She was described as being

petite, 5 ft. tall, weight 100 pounds,

dark complexion, she wears a white hat, a black one,

and it is thought she may

be in a department store.

According to Higgins,

she has no differences,

but she is described as being of a

temperament, however,

she is a widow who

has no children.

Hawkins-Gregg Wedding.

Miss Kate Eloise Hawkins and Jack-

son Stewart Gregg were married

Wednesday afternoon at Temple Auditorium, the Rev. Edwin R. Brown, the assistant pastor, officiating. The bride was attired in a white silk gown trimmed with lace. There were no attendants and the ceremony was witnessed by friends. The bride and groom are well known in musical circles. The groom is first tenor of the Temple Baptist Church and the bride has also been heard as a soloist. Following the ceremony a wedding supper was served and Mr. and Mrs. Gregg left later for the Grand Hotel where they will remain indefinitely for the benefit of the health of Mrs. Gregg, who recovered only recently from a severe illness. Upon their return they will receive their friends at No. 148 South Occidental street.

To Take Up Dramatic Work.

Miss Hazel Washburn, daughter of Mrs. K. R. Brewster, No. 1545 Arlington avenue, and Miss Ruth Cox, daughter of Mrs. E. Cox, No. 2217. Juliet street are soon to take up dramatic work and this season will join Andrew Robins, formerly of the Ferris Stock Company, in vaudeville. Both young women are graduates of the Pomona College and possess great talent.

Rices Leave.

Mrs. Mary Rice and son, Edward

of No. 557 South Hope street left

recently for the pleasure trip.

While away with their son, they will

place in Kentucky. They will also

spend some time in Washington, D. C., New York and other eastern cities.

They will return home some time in December.

Y.Z.A. Dance.

Members of the Young Zionist Asso-

ciation entertained with a dancing

party last evening in Goldberg Hall,

corner of Fifteenth and Main streets.

The affair was in celebration of their

fifth anniversary. Music was provided

by Stamm's orchestra.

Miss Fry Leaves.

Miss Mona Fry, a charming Carroll-

ton, who has been spending

the summer with her mother, left

Thursday for her home. While in Los

Angeles Miss Fry made a host of

friends.

In Honor of Miss Elean.

The Misses Villa and Hazel Sale, No.

2125 Pine Grove avenue, entertained

with a heart party yesterday afternoon

in honor of Miss Rosalie Elean, whose

engagement to M. L. Wick, Jr., was

recently announced. The home was

gay with hearts and cut flowers, a dif-

ferent color scheme having been ar-

eamed. The cards were kept

on heart-shaped cards ornamented with

cupid sketches and the prizes were two

framed pictures. A motto picture was

given to Miss Elean. Invited guests

included Mrs. Pearl O. Winter, Mrs.

Herbert Ward, Mrs. B. L. Smith,

Mrs. Eliza Dickinson, Mrs. Cora

Freeman, Mrs. Augustus B. Cloes,

Stephen Douglas Mott; Misses Lulu El-

can, Pauline Elean, Elizabeth Hutton,

THE CITY IN BRIEF

NEWS AND BUSINESS.

Realty Men Dine.

Hon. Frank G. Tyrell was the guest of honor at the meeting of the Los Angeles Realty Board at the Hollenbeck Hotel yesterday. There were forty-five members of the association present at the luncheon, but no matters of business were discussed. E. O. Parish, of Mines & Farish, the president of the board, presided.

Coming to Inspect the City.

A special party composed of members of the Brooklyn (N. Y.) League, with the city's Secretary, the organization is in the nature of a municipal league. Its members travel about the country to gather new ideas for municipal improvements. It is expected committee from the Chamber of Commerce will look after the concern of the party during the conference here.

Kicked from Wagon.

T. A. Contreras of No. 2612 Blanchard avenue was kicked out of his wagon about 6 o'clock last night at Center and Aliso streets by his horse, which became frightened at a locomotive. He was thrown to the ground. Contreras was dragged half a block by the animal before a patrolman stopped the horse. Contreras was badly bruised and taken to the Receiving Hospital. Later he was taken to his home.

Dr. Lamb Goes East.

Dr. W. A. Lamb has gone to Japan to take part in a meeting on the 31st Inst. of the American Osteopathic Association, of which he recently was elected trustee and director. It is planned by the association to establish a large university in the East, and six men in the United States are to be chosen to conduct the work of the institution. Dr. Lamb will spend a few days at the Jamestown Exposition and on his way home will stop at San Francisco for a short time.

Assaulted by Two.

Assaulted by two unknown men in his house at No. 221 Holly street, Torres was found about 5 o'clock yesterday afternoon bleeding profusely from a gash wound inflicted by some sharp instrument. He was taken to the Receiving Hospital. For some time he was unconscious from the loss of blood. He suffered a slight concussion of the brain. After his wound was dressed he gave a clear description of two men who he declared attempted to murder him. The police are working on a clew which may lead to their arrest.

BREVITIES.

Ladies—You never have to pay more than \$2 for the best shoe made, and the men need never pay over \$25. Ladies \$25. Men sample shoes at our prices. I can fit all feet. I am located on the second floor of 414½ S. Broadway. Visit my store and be convinced. Sample Shoe Man Stark.

J. W. Frey has moved his stock of men's, girls', boys' and ladies' ready-to-wear garments, corner of Los Angeles and Twelfth streets, where can be seen the largest assortment of black and brass fireplace trimmings to be found in the United States.

Something new. Have you tried the jams which are made in the Southern California? Pure fruit, no sugar or cane sugar—nothing else. Ask your grocer for Phoenix Brand, Monrovia Preserves.

Sample Shoe Co., top floor Bryson Block, 2nd and Spring; sample shoes at wholesale prices. See our dozen room and fifty-cent bargains. Open Saturday nights.

For rent—Best front room, third floor, Laughlin. Inquire No. 310. Laughlin. Any grocer will refund your money if you are dissatisfied with Gasene—[Adv.]

Dr. M. B. Campbell returned.

FRIDAY MORNING, AUGUST 23, 1907.

THE SPORT OF SWELLDOM—BRILLIANT OPENING OF TENNIS TOURNAMENT ON POTTER COURT, SANTA BARBARA

ALL CALIFORNIA EVENT.

TENNIS CLIMAX ON AT SANTA BARBARA.

*Gay and Stirring Scenes—Danger
That Los Angeles May Lose the
Cup to the North—State's Crack
Players Face Each Other.*

[SPECIAL CORRESPONDENCE OF THE TIMES.]

SANTA BARBARA, Aug. 22.—The
busiest and most brilliant of Cali-
fornia tennis tournaments is in
progress at Santa Barbara. An af-
fair concerning both society and sports,
a display of skill, and as a bright
spectacle of color and fashion, the
tourney is surpassing.

Although today was the first regularly-appointed day of tournament play, large galleries watched the matches all through the morning and afternoon, on the Potter courts.

The pretty Southern California tennis girl is having the best opportunity to sit in the grand stand and look handsomely enthusiastic that she will get until 1908 comes around; and this final appearance at Santa Barbara is one that will not soon be forgotten.

Twenty-five matches in men's and junior singles were contested yesterday, play being kept up without intermission from 6 o'clock until it was too dark for the players to see. The third semi-final and final of the men's game still remain to be played; a doubles match is to be given to-morrow, and the ladies' event in which the entries are very light, must also be completed by Saturday night.

Brilliant tennis, under ideal weather conditions, marked the play and forecasted great exhibitions for the last two days, although the tournament can only be finished by rushing the matches along.

Championship made his first appear-
ance in action yesterday afternoon
when he faced Ralph Noble. Noble

created a surprise by giving the champion
a hard fight in the second set, coming within a point of landing it

before losing, 10-7.

Little Charlie Nebecker was the hero

of the afternoon, figuring in a long

12-10 set with Trow Hendricks.

The Columbia man had to work his hardest

to save the set and Charlie came

within a point of it. Several times

Boris Johnson, Holmes and Charlie Rogers succeeded in taking a set from Carl Gardner, but the lanky northerner had things well in hand most of the time.

Some great contests will come to-

morrow when the semi-final rounds

will be played in the open and junior events.

In the afternoon the ladies' matches will start.

Finance director Mrs. Bruce, her sis-

ters and Miss Peratis are here and

will play in the ladies' singles tomor-

row.

Bundy and Noble; Spaulding and

SWIFT SWIM SAVES LAUNCH.

Plucky Boatman Relieves Pli-
et of Los Angeles Passengers
in Helpless Craft.

Archie Hartman, who runs a
gasoline launch in San Pedro
harbor, distinguished himself
yesterday by leaping into a
rough sea and regaining control
of his boat, which was drifting
about helplessly, with several
Los Angeles passengers aboard.

Hartman had taken a boat-
load of people to the German
ship Rickmers, lying at anchor
in the outer harbor. The sea
was choppy, and connection be-
tween the little craft and the
big vessel was extremely difficult.

Hartman stood with one
foot on the ladder running up
the high, steel side of the Rick-
mers, grasping a step with one
hand and with a hand-rail holding
the launch alongside.

Suddenly a big wave caused
the launch to lurch violently,
the hand-rail snapped, Hart-
man just escaped precipitation
into the sea and the launch

with only enough gasoline to
take it back to port, shot rapidly
away, with no one to guide
its engine. Three women who
were aboard shrieked in fear
and half a dozen men turned

their backs.

A line was thrown from the
ladder to Hartman on the lad-
der, but it fell short. Launch
passengers shouted to sailors
on the Rickmers to heave a
line, but their cries were not
heard. By this time the launch
was far away from the big ves-
sel and was rocking perilously.

At this juncture Hartman,
fully dressed, lunged himself into
the water, and with swift

strokes swam to the side of the
launch, clambered over the rail
and quickly set the engine in

motion.

Though he lost a watch,

ruined by the bath, and was
obliged to continue his work in
drenched clothing, Hartman treated
the entire matter lightly.

Hartman's feat was

much praised by those who wit-

nessed it and he is a popular

candidate for a Carnegie medal.

PLACE HOPES ON RECEIVER.

Union Mutual Stockholders
Seeking Relief.

Expect State Commissioners
to Untie Knot.

Claim "Winding Up" Is Done
Too Mysteriously.

Within a few days steps will be
taken toward securing the appoint-
ment of a receiver for the Union
Mutual Building and Loan Association.
The State Building and Loan Com-
mission proposes to take this action. It is
believed the condition of the Union
Mutual calls for drastic action, say
some of the stockholders.

Ever since it was announced that
the association would go into liquidation,
there has been a wrangle among
a number of the stockholders and
three of the officers. President Fred K.

Rule, Secretary R. Carlton Knight and
Director D. W. Field. The stock-
holders secured counsel and demanded an
investigation. It is reported that it
was practically impossible to get
any information concerning the affairs
of the association.

Knight several times "threatened"
to resign from his position that was
settled him a large income, but was
met with frequent opposition. His oppo-
nents characterized this offer to resign
as a "bluff" pure and simple. Dis-
satisfied with conditions, the stock-
holders had clamored for representa-
tion. Finally the State Building and
Loan Commission was appealed to and
action is expected shortly.

The commissioners are expected to
instruct Atty.-Gen. U. S. Webb to pre-
pare a petition asking for an injunc-
tion against the corporation and its offi-
cials to restrain them from doing any
more business. A petition asking that a
receiver be appointed would be in-
cluded in the proceedings. It is be-
lieved this move will satisfy all the
stockholders.

MAY PROBE RECORDS.

It will be within the duties of the
receiver to probe into the records of
the association and try to trace some
of the alleged reckless expenditures in
the past. Some of the claims have

already been settled in full. If the
assets of the Union Mutual yield only
a fraction of the amount necessary to
settle the claims of the stockholders,
it is said the directors will be personally
liable for any deficit caused by the
official acts of the board. It is predicted
that there will be sensational

disclosures as to methods em-
ployed in winding up the affairs of the
association.

Several directors' meetings have

DR. JOHN W. GORDON
IN DEATH'S SHADOW.

FALLING PLANK PINS HIM DOWN.

DR. JOHN W. GORDON MAY DIE
FROM HIS INJURIES.

Felled by Portion of Scaffold in
Front of Downtown Building, Well-
Known Minister and College In-
structor, Sustains Broken Bones
and Serious Internal Hurts.

Dr. John W. Gordon, a minister and
for years a professor at Occidental Col-
lege, was injured, perhaps fatally, yes-
terday afternoon when a portion of a
scaffold collapsed and fell on him in
front of a new building at the south-
west corner of Main and Fourth streets.
His left shoulder blade was shattered,
two ribs on the right side were broken,
and he sustained internal injuries, the
extent of which are not known. Dr.
Gordon is at the California Hospital,
where he is attended by Dr. W. T. Mc-
Arthur.

The accident occurred while Dr. Gor-
don was waiting for a street car to take
him to his home at No. 481 Pasadena
avenue. A heavy plank used on a
scaffold in operation above the scaffold
fell from the side and struck the scaffold,
which projected over the sidewalk.
A portion of the scaffolding was
carried to the ground with it. Dr. Gor-
don was struck in the back and crushed
under the timber.

The injured man was extricated from
the wreckage by workmen and an am-
bulance conveyed him to the hospital.

(Continued on Third Page.)

THE PUBLIC SERVICE.

SUMMARY OF THE DAY.

Initiative petitions calling for a special election to vote on a restricted gas zone were circulated yesterday at the City Hall, they emanate from malcontents in the Sixth and Ninth wards and are intended to prevent the City Gas Company from building a gas plant on Santa Fe avenue.

Friends of Restaurant Inspector Schwiegel asserted yesterday that his enemies in the Liberal Alliance have conspired to rob him of his position with the city to gratify an ancient political grudge.

Mayor Harper and two police commissioners were slumming among the gas shops yesterday.

A suit for \$17,000, charging conspiracy to defraud, was filed yesterday in the Superior Court by J. W. Ernest against J. W. McCauley, Clinton Johnson and R. D. Morris.

Benjamin S. Carpenter was granted an interlocutory decree of divorce yesterday, after his wife had appeared and testified.

A dozen small boys were arrested yesterday and arraigned in police court upon the charge of sending in false fire alarms. They had kept the fire department exceedingly busy.

The trial began yesterday before a jury in the police court of J. P. Goytino, one known as the "Sheep King of California," on charge of selling liquor without a license.

AT THE CITY HALL

INITIATIVE IN ALL ITS GLORY.

FREAK LEGISLATION ENTERS GAS FIGHT.

Sixth Ward Malcontents Again in the Saddle—Say Council Must Prevent Independent Company from Building Plant on Santa Fe Avenue or Pay Cost of Special Election.

Two initiative petitions, aiming to curtail the gas district, were circulated yesterday in the City Hall. The petitioners pride that no plant may be erected or maintained in the Sixth or Ninth Wards. One petition which was presented in the Mayor's outer office contained twenty-seven names. It was the intention of the circulators to make an attempt to secure the signature of Mayor Harper himself. Secretary Kennedy blocked this scheme by engaging the circulators in conversation until the Mayor left the hall.

The ordinance attached to these petitions is so drawn as to put the site of the City Gas Company in the Sixth Ward outside the gas zone. Ten days ago the Fire Board granted a permit to the city company to locate a plant at Eleventh street and Santa Fe avenue. A number of Sixth and Ninth Ward property owners protested. These property owners now form the nucleus around which the initiative petitions are circulating.

Attorney Rech is attending to the legal part of the initiative ordinance. He drafted the ordinance, and the circulators make his office in the Hellman block their headquarters.

"We have just been able to circulate the initiative petitions," said Attorney Rech yesterday afternoon. "Two of them were placed in circulation yesterday; half a dozen more will be out tomorrow; we were delayed a few days in getting them from the printer. The petitions are signed by more than 200 names. Today a number of citizens from the Sixth Ward called at my office and offered to circulate the petitions. As soon as they are all out, general headquarters will be established."

"It is not the intention of my clients to keep out the City Gas Company. They believe in competition, but they are fighting a competition that foists on them an offensive gas plant. There are hundreds of locations for the City Gas Company in and about Los Angeles where their plant will not consume thousands of dollars' worth of valuable property."

HE DIDN'T KNOW.

A copy of the gas zone was shown to Councilmen Clampitt and Lyon at the City Hall. Each expressed himself as opposed to its provisions and favoring the location selected by the City Gas Company.

"If they bring a petition like that to the Council, we'll turn it down; there will not be a single vote for it; and we'll have just another gas company here, and the city company seems to be the right one."

Clampitt expressed surprise when told that the Council will not be able to "turn down" the initiative ordinance. Under the charter, the Council can pass the ordinance without amendment or referendum, the question to a vote of the people at a special election. This election will cost the city over \$10,000.

"We haven't spent any \$10,000 to throw away on a special election now," said Clampitt. "We can't afford it. Our employees are compelled to discount their warrants now; there ought to be some way around it."

This is the second time that the city has been confronted by an initiative petition calling for a special election. The first was the saloon election two years ago. That cost the city about \$15,000, and accomplished nothing, as the ordinance was voted down almost by a two-to-one majority.

Councilman Lyon says that the proponents of the Sixth Ward will oppose the proposed ordinance of the gas district. "We want an opposition gas company," says Lyon. "My people have no desire to go through for a second time their experience of last winter. I think the location chosen is a good one. If we curtail the district, they may ask for a permit in the Seventh Ward, and we don't want gas companies there. I have just gone through a bitter fight with the oil companies to keep them within proper bounds, and my people will fight any attempt to join them on a gas plant."

The proposed ordinance eliminates the Sixth and Ninth wards and limits the gas zone to parts of Wards Seven and Eight.

In order to compel the Council to call a special election, the proponents of the new ordinance must present petitions signed by electors in number to 15 per cent of the total vote for Mayor at the last city election. This will require about 5,600 signatures.

Experience with former petitions has shown that it is safe to secure signatures, provided the circulators of petition are paid as much as 10 cents for each name he secures.

Dr. John R. Haynes, one of the heavy stockholders in the City Gas Company, promises to defray the expenses of circulating the petition in the Sixth Ward and the Gothenburg petition. It is not probable, however, that he will make any large contribution to help circulate the present initiative petition.

Friends of the City Gas Company,

among them members of the Fire Commission, are raising their voices high in condemnation of the circulators of the present initiative petition. They say it is all a scheme of the two old gas companies to the exclusion of competition. And they suggest that a little good detective work will show that the Los Angeles and Love Gas companies are supplying the funds for circulating the present petitions.

OH, CHAMP!

Champ Vance of the Los Angeles Gas Company raised his hands in plausibility yesterday afternoon when it was suggested to him, "This company is trying to get in on our initiative petition." Said Vance: "We are not just now trying to make good gas and in sufficient quantities to supply the whole of Los Angeles. This city is growing so fast that it requires something on our part to keep up with it." The City Gas Company has its permit; I suppose it will go ahead and build.

Mayor Harper and two police commissioners were slumming among the gas shops yesterday.

A suit for \$17,000, charging conspiracy to defraud, was filed yesterday in the Superior Court by J. W. Ernest against J. W. McCauley, Clinton Johnson and R. D. Morris.

Benjamin S. Carpenter was granted an interlocutory decree of divorce yesterday, after his wife had appeared and testified.

A dozen small boys were arrested yesterday and arraigned in police court upon the charge of sending in false fire alarms. They had kept the fire department exceedingly busy.

The trial began yesterday before a jury in the police court of J. P. Goytino, one known as the "Sheep King of California," on charge of selling liquor without a license.

It is the first time that the people have stood face to face with the initiative petition of the rose-tinted disguise in which it is clothed by the pink-tea reformers.

I voted and worked for the initiative when it was proposed for our charter," said a city official yesterday. "I listened when its proponents said it was a good idea, and I supported it. From what I see of its practical workings I am becoming convinced that it is a weapon valuable chiefly for political machines and for class organizations to use as a hold-up measure.

"It is one of those weapons whose hit is sharper than its blade."

THE TESTIMONY OF THE PLAINTIFF.

The test of the "initiative" gas ordinance is as follows:

AN ORDINANCE AMENDING AN ORDINANCE AMENDING AN ORDINANCE PROHIBITING THE ERECTION, MAINTENANCE OR OPERATION OF GAS PLANTS, THE MANAGEMENT AND CONTROL OF GAS PLANTS, THE ERECTION, MAINTENANCE OR USE OF GAS STATIONARY TANKS, REFRIGERATORS AND LIKE RECEPTACLES WITHIN THE PORTIONS OF THE CITY OF LOS ANGELES, passed March 1, 1903, and amended 1904 (New Series).

The Mayor and Council of the City of Los Angeles do hereby ordain as follows:

Section 1. It shall be unlawful for any person, firm or corporation to erect or cause to be erected, or to maintain, operate or carry on any works, establishment or manufacturing for the manufacture of gas, either natural or manufactured, within the corporate limits of the city of Los Angeles, outside of the limits of the district of Los Angeles.

Beginning at the intersection of the center line of the official bed of the Los Angeles River with the prolongation of the center line of Porter street, and the center line of Porter street with the center line of Santa Fe avenue; thence northerly, along the center line of Santa Fe avenue to the center line of Main street; thence northerly, along the center line of Main street to the center line of Wilson street; thence northerly, along the center line of Wilson street to the center line of First street; thence northerly, along the center line of First street to the center line of Main street; thence northerly, along the center line of Main street to the center line of San Fernando street to the center line of Redondo street; thence southwardly along the center line of Redondo street to the center line of Aliso street; thence northerly, along the center line of Aliso street to the center line of Molino street to the center line of Fourth street; thence northerly, along the center line of Fourth street to the prolongation southerly of the center line of Santa Fe avenue; thence northerly, along the center line of First street, thence easterly, along the center line of First street, thence easterly, along the center line of Main street; thence northerly, along the center line of Main street to the center line of San Fernando street to the center line of Redondo street; thence southwardly along the center line of Redondo street and Alhambra avenue to the official bed of the Los Angeles River to the point of beginning.

The plaintiff was wholly ignorant of the subject of mining, and was not versed in mineralogy, and he wholly depended and depended upon the defendants for the truth of his testimony, said property."

Mr. Ernest's confidence, he avers, has been misplaced, his reliance ill founded.

Defendant Morris, it is alleged, sold the plaintiff stock in the mine for \$2500. But that was just the beginning of the dealings which were had with Mr. Ernest.

Next, according to the complaint, the defendants busied themselves variably in persuading their good friend, Mr. Ernest, that there was another good mine in Shasta county.

Chief Lips, in despair, called in the members of the detective service, and appealed to them to relieve the situation. The Westlake Mining Company, the Telluride Mining Company, was to buy the "certain property" for \$6000, and Mr. Ernest was to assist by buying 150,000 shares of Telluride stock for \$2000. This was done.

At the close of each little chapter in his long story of woe, Mr. Ernest was presented with stock, with Mr. John Morris, and he was given \$2500. But that was just the beginning of the dealings which were had with Mr. Ernest.

In the next chapter it is set forth how Mr. Ernest was made to believe that he could make \$100,000 by buying 100,000 shares of the mine for \$2000.

He was then asked, "Is it true that you are the owner of the mine?"

He said, "I am, but I am not the owner."

Then he was asked, "Is it true that you are the owner of the mine?"

He said, "I am, but I am not the owner."

Then he was asked, "Is it true that you are the owner of the mine?"

He said, "I am, but I am not the owner."

Then he was asked, "Is it true that you are the owner of the mine?"

He said, "I am, but I am not the owner."

Then he was asked, "Is it true that you are the owner of the mine?"

He said, "I am, but I am not the owner."

Then he was asked, "Is it true that you are the owner of the mine?"

He said, "I am, but I am not the owner."

Then he was asked, "Is it true that you are the owner of the mine?"

He said, "I am, but I am not the owner."

Then he was asked, "Is it true that you are the owner of the mine?"

He said, "I am, but I am not the owner."

Then he was asked, "Is it true that you are the owner of the mine?"

He said, "I am, but I am not the owner."

Then he was asked, "Is it true that you are the owner of the mine?"

He said, "I am, but I am not the owner."

Then he was asked, "Is it true that you are the owner of the mine?"

He said, "I am, but I am not the owner."

Then he was asked, "Is it true that you are the owner of the mine?"

Then he was asked, "Is it true that you are the owner of the mine?"

FRIDAY, AUGUST 23, 1907.

Los Angeles Daily Times. II

**OBSERVATIONS
ON THE SPOT.**

BY HARRY C. CARR.

A teacher in Los Angeles has the distinction of being an "English Grammar" man. The "father" of the movement is a well-known leather-bound book in London, England.

The teacher is a woman who has the distinction of being the highest peak of the English Grammar mountain. She is a Smith Estates woman who gets arrested and sent to jail for shooting her husband and generally kicked around for the rest of the gang.

She has been the "fall guy" for the gang. In Mayor Taylor's estimation, she is the worst Chief of Police that Francis has ever had. At the same time, wickedness was not all gathered under Jerry's hide. He had to stand by a good deal that other men were doing.

Mike Casey and the other men were a big, red-faced "chaw." They had a sergeant and a crossing policeman who probably has "shone." One thing he could do for him: His courtesy has been unfailing, and he has been in jail now and has been convicted.

Mike Sullivan was a cheap crook. He was a pickpocket and probably the one, in point of skin, that Jerry had in mind when he said "all the men in all the houses."

He was a hopeless chump. They got into the pocket of a pair of pants he had on.

Mike Sullivan was a cheap crook. He was a pickpocket and probably the one, in point of skin, that Jerry had in mind when he said "all the men in all the houses."

Mike Sullivan was a cheap crook. He was a pickpocket and probably the one, in point of skin, that Jerry had in mind when he said "all the men in all the houses."

Mike Sullivan was a cheap crook. He was a pickpocket and probably the one, in point of skin, that Jerry had in mind when he said "all the men in all the houses."

Mike Sullivan was a cheap crook. He was a pickpocket and probably the one, in point of skin, that Jerry had in mind when he said "all the men in all the houses."

Mike Sullivan was a cheap crook. He was a pickpocket and probably the one, in point of skin, that Jerry had in mind when he said "all the men in all the houses."

Wear a Jane

Add comfort, beauty and distinction to your clothing with our dainty hair pieces: a Jane and a string of Coro-Puffs. We match hair of any shade.

WEAVER-JACKSON HAIR CO.
443 South Broadway

In the evening there will be dancing and fireworks. For those who do not care to attend the ball games there will be sports on the Midway during the afternoon. There will be numerous prizes. The program will include potato races, six-legged dog races, and other equally amusing contests. Special cars will be run for the occasion.

The efforts of the Early Closing Movement Association to induce Los Angeles merchants to close their stores at 6 o'clock on Friday evenings, where most of the rough work is done, has met with great success. Little opposition has been encountered from employers. The members claim they are able to give their employers better service under the early-closing plan.

Merchants who have joined the movement say there is little or no noticeable falling off in the business. They expect the public soon to get into the habit of doing its shopping earlier in the day.

42. BENJAMIN, M. L., Hollywood.....	5,563
43. SHAPIRO, LENA, 1717 E. 15th St., City.....	5,039

As the contest approaches the last two weeks of its course interest wakens afresh. Things were hummed at headquarters yesterday. Contestants gathered in groups and discussed the possibilities and probabilities of the final result, at last arriving at the conclusion that no one could possibly forecast the winning ones. This one and that one is under suspicion as having a marvelous numbers of points hidden in that mysterious and non-communicative resort known as "up his sleeve." Muriel Bells sent down a score of a couple of thousand points or so and everybody thinks she has a big reserve ready for the final innings.

The close race of Stanley Tolley and Ben Hitchcock is being watched with great interest all over Southern California. Yesterday subscriptions came for both boys from San Diego. Stanley had a big bunch of coupons from a couple of San Pedro girls who are watching his race, and breathless interest. Ben had a newspaper clipping sent in from Goldfield, Nev., and coupons from Long Beach and other points. This morning Ben beats Stanley by a margin of some 1700 points and regains the much contested second place, and is but little more than 2000 points behind Edna Wagner. It will be a neck-and-neck race from now on between this trio of splendid racers—and every one of them deserves to win.

COVINA BLOSSOM BOOMS.

Blossom Vincent, the Covina girl, furnished the big score of the day, sending in almost 3000 points and taking up the lead. The White girls, the Pasadena boys, and leading not so very far behind Ventura. It looks as if Miss Blossom would have a word to say about those top perches. She's on the \$100 cash prize run now and from then up every jump means from \$10 to \$15, so it's worth while to keep climbing.

EVERYTHING HUSTLING.

Almost 40,000 points were scored in yesterday. Wallie Swain, the Soldiers' Home candidate, turned in the first big score he has yet done and ranks second in the number of points sent, 2562; while several exceeded the 1500 mark.

VIRGINIA STIVERS,
who always smiles.

RAMONA CARTER,
a splendid racer.

Jennie Bloom put in the day at Sierra Madre and came home delighted with her success. She thinks the residents of that foothill suburb simple great for she scored 2500 points. Some interested friend took her in a carriage to call upon prospective subscribers and altogether the Boston-street hustler had the time of her life. Best of all she regains her smile happily after the morning and sits smiling happily again. The carnival, the Anaheim girl, who will now have to hustle round and climb back again.

Mar Moon Gong landed a new annual subscription from Portsmouth, O., yesterday and consequently marched up a row and crowds down Rosine Lehardy. If she doesn't begin to work soon she will continue to do so.

Florence Leonard, the Redlands candidate, received a new annual subscription from San Diego yesterday and she goes up a row, too, and takes the place of Margaret Chung, the Chinese girl.

A HARD WORKER.

Virginia Stivers and her grandmother keep working away and every afternoon sees her scoring in something. Many of the regular army men and retired officers are interested in Virginia on account of their acquaintances with her grandfather, Maj. E. J. Stivers, who was a captain in the regulars of the Civil War and who now lives in Pasadena. Mrs. Price, who is an artist of note. These army men have promised Virginia to help her about next week and then she has already received and expects still more from physicians and professionals who are friends of her uncle, Dr. C. G. Stivers. Virginia is a happy-go-lucky little miss with a sweet smile and a ready wit and is a favorite with all. We know her well, and when we see her we are pleased that you will buy and tell your friends to buy. If you don't get one of these suits now, some dealer will, and before we will be here again you will be quoting today. Our price is \$1.00.

BEATS THE RECORD.

It's rather interesting to note the gains over last year of different localities. To this, at a date corresponding to this, in the fall of 1906, the Pasadena contestants had all told, but 16,750 points between them. This morning the two Pasadena boys have a total between them of 181,251. Covina had 44,172 points last year on the offing day of the contest as against 75,357 this morning, and Lordenburg had a score of 31,086 a year ago whereas she has a total of almost 100,000 this morning.

As for the city contestants, the difference is even more remarkable. Just one year ago the total of the three top liners—Merle Prewitt, Bertha Smith and Vivian Bassett—was exactly 27,000, and this year it is 345,520—a gain of almost 15,000 points.

SCHOLARSHIPS OFFERED.

Below is a partial list of scholarships which will be offered to contestants. Several other institutions will also be included. The scholarships below represent a value of \$275.

General Activities.

Filmore School of Music.

Los Angeles Conservatory of Music and Arts.

Huntington Hall.

College of Oratory, Beulah Wright, Director.

University of Southern California Preparatory School.

California Military Academy.

Long Beach Business College.

Valley Beach Conservatory of Music, violin department, Louis G. Kadic, Instructor.

tom of this page and sending it to

NEW YORK FIRE
ADJUSTER'S SALE

Every man, woman and child who attends this sale will get more for their money than ever in their life before.

When we open the doors at 8 a. m. Friday morning you will have the opportunity to lay in a supply of clothing,

furnishings, hats and shoes at a price even below the cost of manufacture.

The chief adjuster wired to sell, and to sell at once, regardless of price, and not to refuse any reasonable offer.

A low valuation was placed upon the entire stock—lower, in fact, than clothing was ever priced before,

and with a spot cash offer from our buyer which was willingly accepted. As we had bought heavily in other mercantile lines for fall our time is limited. We are compelled to turn this into cash at once. This mammoth sacrifice is

for the public good. We are giving up a great deal of money to do this.

These interruptions are naturally annoying to us, but we are doing our best to meet them.

Superintendent Lamb said, "We are doing our best to meet these interruptions."

He is a hard worker and we are doing our best to meet these interruptions."

**STRIKE WIRES
ARE GROUNDED.**
TELEGRAPHERS RESORT
TO PETTY TRICKS.

Wire from Los Angeles interfered with. There is little delay in sending messages—Strikers must sign contract before returning to work for postal.

Interference continues on the wires running out of this city. The Associated Press leased wires to the strikers several times yesterday. The trouble apparently started between Post Office and telegraphers. The wire is leased from the Post Office but its proprietors are in no wire trouble. On the West Coast wires between this city and Bakersfield, railroad telegraphers continue their cowardly methods of delaying messages. The B.P. Post Office is involved with them.

"These interruptions of our service are most annoying," said Superintendent F. H. Lamb last night. "But general communications are much improved. We don't pay much attention to the petty methods used by the telegraphers. It's feeling to be pretty general that the strike is about over. The effort on the part of labor-union telegraphers to use us is about the last resort of strikers."

Superintendent Lamb said his company would never recognize the strike union. "When the strikers are in their senses and apply for us, you may be sure our loyal operators will be cast aside for the ones who walked out of our office two years ago. Some of the best men will doubtless finally secure positions, but nothing will be guaranteed. We informed that our company will require applicants for positions to sign a contract, but we shall use our care in picking our operators in the future."

In the Postal Telegraph office, conditions were normal. Superintendent said their dispatches were handled with ease.

He added that the conditions at both ends are satisfactory," he said. "A guard will be maintained in town to oversee union-labor relations, who apparently think destruction of property is a strong argument in favor of the striking operators."

Requirements for positions at the Postal Telegraph office will be required to make a contract which reads as follows:

"I hereby agree if given employment by the Postal Telegraph Company, to do full and faithful service at all times, and to do all assistance in my power to help the company's business. I further agree that I will work steadily and well with every operator, be it or she union or non-union."

In effort to bolster up the lost of striking telegraphers, by now an organ of laborite troubadours that since the recent murder attack upon the operators emanating from the office of the abandoned Post Office, Lewis' company stated last night that it is abandoning the office. It is manned with a crew of expert men and is taking care of all the business if there had been no strike.

**ERN UNION ASKS
GOVERNOR FOR AID.**

(THE ASSOCIATED PRESS—A.M.)

MONTGOMERY (Miss.) Aug. 22.—The management of the Western Union Telegraph Company today appealed to the governor to prevent the telegraph office at Holly Springs, Miss., from being abandoned.

Greenwood, stating that the company stated last night that it is abandoning the office. It is manned with a crew of expert men and is taking care of all the business if there had been no strike.

Situation Leads Into All Kinds of

Complications and the Future Will

Be Replete With International

Troubles.

SECRET WIRE TO THE TIMES:

OTTAWA (Ontario) Aug. 22.—(Examiner, Dispatch.) Employees of the Western Union at Fort William have been released as American girls. Miss Lillian of Decatur, Ill., was appointed their operator. The line man is going to go out in sympathy with protection.

**W. GIVES PROOF
IT IS WINNING STRIKE.**

(SECRET WIRE TO THE TIMES)

CHICAGO, Aug. 22.—(Examiner, Dispatch.) The Western Union today announced through Superintendent George C. Williams that it was handling all business satisfactorily and was willing to refute statements made by striking telegraphers that it was pulling up by allowing a number of business men to visit its rooms.

It was declared that messages are being sent with little delay and that at the present time all telegrams to and from the new day's news were being sent with clear wires.

President Wilson of the Telegraphers' Union gave out statements today giving an estimate of the business transacted by the Western Union and Post Office.

He declared that his company has informed anxious people that the new day's news was being sent with clear wires.

It was also stated that the new day's news was being sent with clear wires.

It was also stated that the new day's news was being sent with clear wires.

It was also stated that the new day's news was being sent with clear wires.

It was also stated that the new day's news was being sent with clear wires.

It was also stated that the new day's news was being sent with clear wires.

It was also stated that the new day's news was being sent with clear wires.

ARIZONA. TERRITORIAL VALUES LEAP.

Millions Are Added to This Year's Assessment.

Mining Properties Prominent in the Increase.

Figures for the Counties Are Shown in Detail.

SPECIAL CORRESPONDENCE OF THE TIMES.

PHOENIX (Ariz.) Aug. 21.—The substantial advance of the Territory of Arizona in mineral properties as well as in more valuable taxable properties is shown by the result of the deliberations of the Territorial Board of Equalization just concluded in Phoenix. The most important feature is that the assessment of the Territory has been raised, so round numbers, from \$62,000,000 to \$77,000,000. By counties the assessment returns follow:

Cochise	\$20,239,715.55
Maricopa	15,014,872.40
Gila	10,275,725.48
Yavapai	7,818,943.12
Apache	6,278,249.48
Navajo	5,869,550.09
Tucson	3,664,550.54
Coconino	2,800,000.00
Greenlee	1,715,739.96
Laurel	1,641,181.54
Marble	1,630,827.91
Apache	1,630,827.91
Total valuation	\$77,000,000.00
Less exemptions	235,000.00
Total subject to taxation	\$76,765,000.00
Subdivided, the different property show totals thus:	

All mining property.....\$20,239,715.55
Town lots and improvements.....15,014,872.40
Fathoms.....10,275,725.48
All agricultural products.....5,869,550.09
All live stock.....6,278,249.48
All personal property.....11,369,000.00

It will be noted that the county has jumped to the head of the list of taxpayers. This is due wholly to the rise in mine valuations, assessed on 25 per cent. of each mine's production in dollars, according to the terms of the Decree of the last Legislature. A heavy increase, as yet, has been made in the valuation of railroads in the Territory.

The territorial tax rate will remain at 10 mills on the dollar, a large decrease in valuations. This is due to the heavy direct appropriations made to public institutions by the last Legislature. More cattle, by 15 per cent., have been listed, so that you will see 50 per cent. more sheep and you know the tax is satisfied that not more than 50 per cent. of the cattle and 70 per cent. of the sheep of the Territory are shown on the tax roll.

In Maricopa county, the assessment for county purposes will be \$14.00 on each \$100 of value, to which must be added the territorial assessment.

FIGURES OF SCHOOLS.

The report of R. L. Long, Territorial Superintendent of Public Instruction, has just been issued. It is shown that the enrollment in the public primary and grammar schools for 1900-1901 year was 10,000, in high schools 1,200, in private schools 1,200. The percentage of school population enrolled was 76. There are 233 school districts and five high schools, 100 grammar schools and 203 primary schools. There are 1,000 male and 1,000 female teachers, 35. Of this number 402 have first grade certificates; the average monthly salary paid to teachers was \$80.00 and to women \$75.00. The number of pupils has increased during the year, by 200. The number of male teachers has decreased two and the number of female increased twenty-four. The total receipts for school purposes have been \$207,762, an increase of \$75,000. The actual cost of school maintenance was \$480,000.

TO SAVE BLOODSHED.

General permission has been given by the Board of County Supervisors to the Reclamation Service to enter upon all highways for the construction of lateral ditches from main canals on the north side of State rivers, now owned by the government. In many places even four ditches have been dug by the farmers along the sides of the county roads, in order that each might have his own head gate over the canal, secure from interference by neighbors. The system of the present distribution of the water has led to much trouble in this valley and even to bloodshed.

Indeed it has been said that water has been a far more prolific source of trouble in the Southwest than even whiskey. It is proposed by the Reclamation Service to establish trunk laterals, from which each farmer will be supplied with his share through locked gates, with which it will be a crime to tamper. There can be no doubt that this system will lead to far nearer approach to justice and accuracy in the distribution of water than any now in use; it will also save much water, as not over a third of the number of laterals will have to be wetted up at each irrigation payment all lateral ditches in the valley and all which carry only occasional flows of water.

TERRITORIAL NOTES.
A score or more of Arizonans, headed by Gov. Kibbey, will attend the National Irrigation Congress session at Sacramento early in September. There is an impression locally that at the congress will be made some sort of attack upon the policy of the Reclamation Service in concentrating the water at the present in very large areas of the lands of the Southwest. If this attack materializes, Arizona can be depended upon to furnish a sturdy defense.

On the tax roll of the Territory, ostriches are being taxed at \$100. Maricopa county bears the charge of 15 of the giant birds, valued at \$67,000. For the present season, something of an innovation will be entered upon by the ostrich growers of this valley. After a flock of ostriches has fed for a while upon alfalfa, there is a look about the country, as the cycle had passed, for the leaves are what the birds feed on, the more nutritious stalk being left to waste. So one local ostrich-rearing company has purchased 3000 heads of sheep in Northern Arizona, to be driven south this fall and be fed grain, until the flocks from which they come have been turned.

Engineer J. D. Stannard of the Reclamation Service has patented something he calls a gyroscope, an electrically operated contrivance, composed of a number of double glass globes, intended to take the place of the marine compass. It is especially for the use of ships, this being the more remarkable because Stannard has never in his life been on an ocean steamer. It is claimed, when the apparatus is placed due north and south, that "need" moving between the double globes will indicate automatically the exact longitude and latitude of the vessel's position.

In a pile of "old horse" at the Southern Pacific depot is one article of decided interest. Very evidently it once was the strong box of a cathedral, as it shows signs of having been set in

mortar at some time. It is of quarter-inch steel, about eighteen inches high, by a foot in depth and breadth and with a massive-locked door, which has been forced. Within the box is heavily quilted with white satin, evidently of great age. The shape of the door is continued within, where the only article remaining is a large piece of linen, upon which a crimson cross has been embroidered. It is probable that the cloth was stolen from a Catholic church, and, through publicity, it is possible, it may be identified by the church authorities.

The annual camp meeting of the Methodist Church, South, is now in progress upon the church grounds near Phoenix, under the charge of Pastor Gossman, assisted by W. R. Thornton of San Bernardino, Cal.

About the only advantage that the joint-Statehood agitation has been to the Territory consists in the fact that the United States government is to pay a considerable part of the expense of the last election. This expense, according to the figures given by the different counties of the Territory, foots up to about \$22,000, for which requisition will be made upon the national government by the Secretary of the Territory.

Yesterday at Sentinel, an unknown man was shot in the back of a passenger train, while attempting to steal a ride. There being no justices of the peace in the vicinity, a number of the residents organized themselves into an informal sort of coroner's jury and rendered a verdict of accidental death.

Mr. M. A. McRae, City

an inventor in whom human and utilitarianism are joined. He has invented, though not patented, a sunshade for horses, which he and his neighbors have used with entire success during the melon-shipping season.

A large sheet of canvas held taut above the team of horses by means of light iron rods, the front end being securely fixed in a socket at the end of the pole.

"JUICE" PLAYS HAVOC.

ELECTRIC STORM DAMAGE.

BISBEE (Ariz.) Aug. 21.—Electric storms have been playing havoc along the border of late. Last Sunday at Cananea four Mexican laborers were struck by lightning and killed, each at different points in the great Mexican mining camp. The Catholic Church sent a priest to the scene, the priest and his assistant, who were within at the time, escaped without injury.

On the plains the lightning has done

much damage to stock. In one place fifteen sheep were killed by one stroke; in places, four and five cattle have been struck, as they huddled together for protection against the storm. At Tombstone on the 15th, Pauline, a woman, was paralyzed by a lightning bolt which knocked her from a wagon on which she was riding. The Courthouse was struck, but the electricity escaped through wires without doing any particular injury. An unusual circumstance in the deep mines at Tombstone, miners were shocked by the electric current conducted to them by pipes from the surface.

MAVERICKS OF NEWS.

last Friday at Lowell, George Petovich, a workman in the Lake Superior and Pittsburgh mine, was instantly killed by the fall of an immense boulder in a stope on the 1000-foot level. In the same mine was killed W. R. Gurnett, a 20-year-old ore chute on one of the lower levels. His death was first made known by the slipping of the body through the lower gate, opened by a car man in the course of his work.

John Kalan, a Slovavian miner in a shaft of the Calumet and Arizona Company, was terribly crushed about a week ago by a rock which dropped from the roof of drift and pinned him to the floor. The rock was broken, several vertebrae having been dislocated and partial paralysis was the effect. There seemed no doubt that the injury was fatal, yet the man has rallied and now there seems no fear of a fatal termination of the accident, though he may be a cripple for life.

Last Friday Samual Dabovich was killed in the main shaft of the Calumet and Arizona mine, dropping 200 feet from the 1000-foot level. His death was due to disobeying a well-known and positive order that, under no circumstances, should a miner attempt to jump over a shaft. This he did, but his foot slipped and he fell to the bottom.

While working on the top of a new roundhouse at Naco, J. J. Starr reeled and fell to the ground, a distance of twenty feet, receiving injuries from which he died a few hours later. He was a telegrapher from Southgate, Calif., a member of the Knights of Pythias. The lodge tried to delay burial, but without success, for under Mexican law, interment must be made within forty-eight hours after death.

A Mexican named Salcedo, employed in the Copper Queen smelter at Douglas, remarked that he had headache and so retired from work for awhile and so dedicated the funds to some benevolent cause. The cars crashed together and Salcedo's head was forever cured.

In the vicinity of Naco there is a running stream, year during the last winter, the fat of E. H. Clegg, who was cast out in winter and run down an ordinarily dry arroyo. Mrs. Clegg was returning home from a neighbor's with her five children when caught by the flood. The oldest child, nearly eight, and the smallest, body the farther car one was missing four years of age. The father, manager of the Warren Plumbing Company, Bishop, was summoned and with neighbors searched a search. The body of the child was found on almost dry ground, the water having receded in the night.

An extremely stringent quarantine is now being enforced against cattle from Southern California, but it has been demonstrated that the Texas fever tick is prevalent among cattle along the Colorado River.

The Warren Plumbing Company, Bishop, was summoned and the neighborhood was searched. The body of the child was found on almost dry ground, the water having receded in the night.

On the 15th, a man, who had been

employed by the smelter, was

simpler experience in the regular army and deserted, taking their mounts with them. Every one was recuperated and each man sent to those who were imprisoned at Alcatraz Island. Not one of the men sentenced is over twenty-four years of age.

The headquarters of the forestry service in Southwestern Arizona, above the Colorado River. This country is sparsely populated and contains no timber lands, and here and there are found copper indications. Water is at the bottom of box canyons, and difficult of access. The country rock is mainly granite, alternating with sandstone or limestone, lime and shales. On these plains it is proposed to sink wells, seeking to determine the existence below of petroleum.

Mrs. A. S. Fish, in charge of the government telegraph office at Snowflake, in Navajo county, is authority for the statement that, a week ago, fish rained down on the top of a gravel knoll near her home. She rescued a number of fish and put them in a tub of water, where they remained alive and lively. A couple of them, five inches in length, resembled carp, and the others seemed to be of the same name as those that swim in the Colorado River.

At Williams there was deep trouble a short time ago between employees of the United States postal service and of the Santa Fe company. The Santa Fe agent, Victor, by name, was struck with a heavy iron hook by Mail Clerk McLachlan. After Victor had refused to leave the mail car, McLachlan, who runs between Williams and Albuquerque, was arrested and liberated on nominal bail.

E. H. Gray, employed on the Block Cooper property near Prescott, participated in a thrilling accident a few days ago, and considered himself fortunate to have escaped with his life. He was at the bottom of an eighty-foot shaft, when down the face of the shaft, ladders and air pipes, and the bottom descended directly upon six ticks, a giant spider, which had been taken out of a load holes that Gray had just finished. When the car struck the bottom, Gray was curled into a minute lump in one corner, and was smashed into a semblance of pancake.

F. H. Hitchcock, First Assistant Postmaster-General, was a late visitor to Flagstaff, Arizona, and to the Whipple Barracks, the home of the National Guard of Arizona. After inspection of the latter, he went to the Whipple Barracks range, near the city, for about three weeks.

NEWS STRAYS.

The municipality of Flagstaff is said to be hopelessly tied up, owing to the absence of five of the members of its Council, the two remaining members being unable to establish a quorum and thus render the business of the city impossible.

Several months ago, the city of Prescott tried to start a municipal electric lighting plant, and in the attempt succeeded, a sum of \$400 with John Rohrbach & Son of Los Angeles. The account has not been met, and the creditors have requested permission to take down the line which had been erected.

Eight cavalry recruits at Fort Huachuca became dissatisfied with their

**LAST RITES
AT FUNERAL.**

Ceremony at Bier
of Will A. Harris.

Saying Words and Fragrant
Flowers There.

Scene at Meeting
of Bar Association.

A number of people gathered
in Auditorium yesterday af-
ternoon to show their respect for
the late Will A. Harris, who
was present, and it is
the emotions of strong men
that they were upon this

platform was a mass of mag-
nificent offerings from scores of
clubs and organizations with
the deceased was intimately
connected. The Los Angeles Bar As-
sociation sent a beautiful open book
urn, resting upon a pink flowers and lace ferns;
Marine Bar Association sent a pedestal decorated with
the Chamber of Commerce of this city, of which
was a director for some
years; a base decorated
with white roses and
lilies; the Gamut Club,
with golden strings; the body
was in plain white robes.
After the services proceeded, one
of the circumstances could
not recall the inspiring words of
Mr. Harris at the inception of the
work for the erection of a great
Christian Association
which he had commercialized
at the spot where his body lay.
The address at the Hobson
when the enterprise was first
made known to the public, and his
words urging his hearers to
act and make it a success for
the young men of the
city, all who were
at that memorable occasion.

SIMPLE CEREMONIES.

Yesterday was very sim-
ple to Mr. Harris's will.

Rev. E. P. Ryland of
Methodist Church, personal friend of the de-
ceased, recited the scriptures and gave
service followed by a violin
of H. Clark of the

Los Angeles Bar Association began by
depicting the grief that
the legal profession and men
generally, when the
death of Mr. Harris first
came. He told the audience
about the man he
so dearly loved, that
there stricken in the

mind of people, but
said Mr. Gates, "As
a man, he was a

high place. Law, he
expounded it.

He shone most as
with mind, vocabulary

he was very successful,

was ever tried away

and not a few

the legal endowment, but,

said that, oratory

in the presence of this dead

No DUTY UNDONE.

Judge Bordwell in his decision, filed

stated that he had satisfied

that the defendant, W. E. Keller, and

not the plaintiff, was the real insti-

gator of the proceedings. Commenting

on the goodness of the case, in which

the wife had been separated from

her husband, he said that she had

nothing against his wife, and that she

had not offended in any way. The only

reason he would give for the alleged

desertion had in reality been a separa-

tion by consent.

The trial continued at that

time, and the defendant was subse-
quently called as a witness. He testified that
he had ceased to care for his wife,
and had established a separate home
with the wife of one of his five
children, and gave their names and
ages, but it appeared that he had not
seen the youngest.

Keller, though relying wholly

on the alleged desertion to establish

her case, made inferential charges

against her husband in her testimony,

stating that he had formed other
affections. The testimony in that case
developed that the wife had given up
the filing of the action by Mr. Keller,
there had been a property settle-
ment which was eminently satisfac-

tory to her.

The trial continued at that

Los Angeles County—Its Cities and Towns.

NEWS REPORTS FROM CORRESPONDENTS OF THE TIMES.

MAGNET FOR ELECTRIC.

NORTH END IS FOR TROLLEY.

WANTS A LINE EXTENDED FROM PASADENA.

People of That Community Willing to Pay a Bonus in the Interest of the Enterprise—Mr. Huntington to Be Invited to Ride Over the Territory.

Office of The Times, No. 35 S. Raymond avenue. PASADENA, Aug. 22.—Lincoln avenue people and the whole of North Pasadena stand a good chance for electric car connection with the heart of Pasadena, and thus with Los Angeles and the great interurban system, which makes Southern California more convenient for travelers than almost any other section, except possibly, some parts of thickly-settled New England.

Under the lead of Mayor Thomas Harley and the citizens of North Pasadena most interested, there is a movement afoot to bring H. E. Huntington onto the ground and show him personally the advantages of a good electric line from Lincoln avenue and Fair Oaks out to Piedmont Drive, a distance of three miles. Property holders along the route are not only anxious for the line, but they are now willing to pay part of the initial outlay.

According to the present idea, Mayor Harley expects to induce H. E. Huntington to give a ride over the territory or afternoon to a trip through the territory. The Lincoln Avenue Improvement Association is ready to meet the railway builder more than half way, and for that reason the approach of A. J. Tolson, John McDonald and Thomas Stasik as a committee to assist the Mayor in his efforts to bring about what would be an enormous improvement for the section under notice. They will meet Mr. Huntington with an answer and take him over all the grounds and let him know for himself the necessity and advantage of the proposed road.

More than this, they are willing to defray by subscription to the stock or otherwise, somewhat more than one-third of the cost of the proposed road. This section is growing fast, even with the disadvantage of no car service, and the boom incident to the projection of the road will bring sufficient population to support a good service at least, this is the argument of the promoters.

The reason that Lincoln Avenue, being a macadamized highway throughout its whole distance, road-building would not be as costly as on the downtown streets. Estimating a railroad to be \$100,000 to \$150,000 per mile, they say the project would not cost over \$45,000 to put the road through from the intersection of Fair Oaks and Lincoln avenues to Piedmont Drive. The residents are willing to subscribe \$100,000 to the total cost and will put in this sum either in a subscription to stock if any is put on the market, or as a direct bonus to the company. This looks like business. It shows that the Lincoln-avenue people intend to have railway connection and have gone gunning for their game with good ammunition.

Many are anxious in fine trim and it is expected that the committee will soon have good news for their constituents. Mayor Harley is devoting much time to the project. From now on the Pacific Electric Company will have to give up men and materials for track-laying material right in Pasadena, and it would be a simple matter at the right moment to shift this force to the Lincoln-avenue line.

EAST SIDE SEWER IN VIEW.

After considerable delay, City Engineer Van Ornum has begun to figure upon the cost of a sewer for the East Side. It is to run down Allen Avenue and through the Oak Grove and Oak Knoll tracts for nearly three miles and connect with the outfall sewer at the intersection of Old Hill road and El Molino avenue. The City Engineer expects to have his figures ready by next Tuesday, so that the cost may be figured into any call for bonds that may be issued. The City Council is considering the issuance of bonds for the schools, the electric plant, the drainage and the improvements, and it is thought the East Side people should have a chance to present their case.

WILLIAM HENKIN AND A. MISCH HAVE BEEN SELECTED BY THE UNITED JEWISH BRETHREN TO ESTABLISH A SYNAGOGUE IN THIS CITY. There are here of almost the only well-known religion which has not a place of worship in this locality. As announced yesterday the next meeting of the Jewish United Brethren will be held at the home of A. Lipsky, No. 430 Lincoln avenue on Sunday, and all funds will be collected to be present.

F. W. HILL, well known in this city and the neighboring towns, died yesterday morning at the Pasadena Hospital. It appears that Mr. Hill enjoyed Sunday at the beach. He remained in the ocean about five hours and came out with a healthy appetite. He ate heartily of watermelon and afterwards enjoyed a good supper. He returned to his home in this city seemingly none the worse. Symptoms of ptomaine poison developed and he was carried to the hospital where he died. He said that in all probability the watermelon had spoiled somewhat. He was the junior member of the bicycle company of Lincoln and Hill, about 39 years old and a native of Massachusetts. Arrangements for the funeral will be made as soon as word is received from Mrs. Hill, who is now in the East visiting family friends.

It is reported here that Elmer Awi of No. 1450 North Fair Oaks avenue, saved the life of Mrs. Fred Truxton, wife of a real estate dealer at Hollywood. In distress, Mrs. Truxton swam far out into the surf and, finding she could not return, fainted. Young Awi went to her assistance and brought her ashore after a hard struggle.

Quinn, an old trick nester, a thief here more than 25 years yesterday morning. He made himself familiar with the location by making small purchases at the Up-To-Date Grocery, and yesterday morning asked for a gallon of cigar juice and a dinner when J. L. Borden, one of the clerks, was in the store. The clerk had to leave the building for the fluid, and the thief broke the cash drawer and departed before his return. He has not been caught.

Mrs. W. C. Smith of North Grand avenue, accompanied by her daughter, Evelyn, and her son, Robert, and Miss Cushing, went east yesterday for an extended tour. They will visit Milwaukee, Rapid City, Canada and New York. Dr. Smith will join them in about two weeks.

THOMAS-DAVIS.

The marriage of Miss Jessie C. Thomas, daughter of Dr. and Mrs. Rosecoff O. Thomas and Roy Clare Davis, solemnized a noon yesterday at the home of the bride's parents on Belvoir avenue. The ceremony was performed by Rev. Dr. George A. Gates, president of Pomona College, in the presence of about fifty relatives and close friends. The bride, who was under a canopy of green, the simple wedding service was held, was decorated with masses of ferns, papyrus, asparagus, plumbago, and other greenery, and in the dining-room pink geraniums with white flowers were effectively. Mendelsohn's wedding march was played by Miss Virginia Phillips as the bridal party entered. Mrs. Ben Whittemore acted as matron of honor, and her maid of honor, a gown of white crepe de chine. The bride entered upon her father's arm, and wore a princess gown of white messaline chiffon, trimmed with point lace. In her hair was a bouquet of white roses and carried a bouquet of bride's roses. Frank Seaver acted as best man, and, with the groom, met the bride at the fern-banked alter.

After the ceremony a wedding breakfast was served, and later Mr. and Mrs. Davis left for a brief journey, after which they will be at home in their own home on Belvoir avenue, the day after which will be the gift of Dr. Thomas to his daughter.

The bride, who is a graduate of Throop and also Pomona College, is a native daughter, her family having never been married. The groom is assistant cashier of the American Bank and Trust Company.

BURNED BY GASOLINE,

Avalon Boatman Burns Severely by Striking of Match Near Engine.

AVALON, Aug. 22.—A lighted match in close proximity to gasoline has been demonstrated by Guy Travilla, a local boater, to be somewhat dangerous without possibility of escape. Last night, about 10:30 o'clock, Mr. Travilla took a party of friends aboard the launch Grace and struck a match to investigate the engine. Just what happened is a bit vague to him, but his friends say he was near the engine when Travilla started out for town, short notice. He located a doctor and this morning is able to be out with his hair and eyebrows singed and his arms badly burned. Otherwise he is intact.

MANY YELLOWTAIL.

The big school of albacore, which for ten days has been lingering about three miles off the shore, and from which some fish dinners have been taken, has been superseded by great droves of yellowtail. Yesterday was "yellowtail day" on the island.

A number of fine catches were brought in in the afternoon. The yellowtail arrived with ravenous appetites, striking readily. A number of boats of this finny luxury, destined to this fact.

Among the day's most successful anglers was Thomas McD. Potter of Pasadena, who is a member of the Tuna and Light Tackle clubs. He returned from the battlefield with armament loaded and a catch of yellowtail, no uncertain dimensions.

Another successful manipulator of the rod and reel was Frederick Walton, son of Capt. Walton, who in the afternoon caught twenty-three. Believing this had to be handed to him by means of fishing, took one or two extra ones of another variety, so did not return with a "lemon."

Sam Golden took a fine tuna this morning, and yesterday also depleted the yellowtail hosts by twenty-three large catches.

WEST SNipe HUNTING.

A number of the islanders last night played a practical joke on a popular young Englehardt here, Dick Collcroft, who, up to a late hour yesterday is still lying in bed trying to figure out the point of it.

The islanders informed him that "snipes" had become plentiful at Pebble Beach, and accordingly he indulged his desire to go after them. Several of the islanders volunteered to show him how a boat was procured and the party went rolling across the deep in quest of the much-heralded family of snipes supposed to be waiting for them there. It was 10 o'clock when the party arrived. Collcroft was given a rock and told to hold it open, while the others went after the birds. Then the jokers sneaked off to the boat and returned home. Collcroft came walking back about 7 o'clock this morning with an empty sack and somewhat disappointed in the island humor. It is hoped he will appreciate the joke later on.

VANDALS ON LAUNCH.

Tad Goff is looking to some vandals or vandals who remain to be a grievance against the launch. But while the latter was moored at Hamilton Beach, it is reported that some one went aboard of it and proceeded to put it out of commission by various methods involving the use of an ax and other implements. The launch is said to be badly broken up, and a still hunt is being resorted to for vandals.

GARBAGE IN OCEAN.

Avalon is now experimenting with a new system of getting rid of its garbage. The smoke and smudge emanating from the crematory has caused the old system to fall into disfavor and the Banning company has built several boats to be utilized in carrying the island waste to the east coast, where it can be dumped into the ocean. It is said the plan will be less expensive and more practical.

AVALON NEWS NOTES.

Considerable blasting is now being done near Lovers' Cove, where the Banning company is building a roadway and artificial beach preparatory to constructing a new pier for its boats.

CLAREMONT.

CLAREMONT, Aug. 22.—E. A. Goff, business manager of Pomona College, has been placed in personal charge of the Claremont Inn. The inn will be opened again September 18.

A. A. Gemmill has today sold his one-acre orange grove in the Loop and Main to Frank J. M. Boyce of Claremont; stated consideration \$11,500. The deal was consummated through J. O. Enell.

Hurry to Coronado Tent City.

FLAME FIGHTERS TUG.

FIRE HOSE TO PULL OUT VOTES.

HOLLYWOOD DEPARTMENT VERY ACTIVE FOR BONDS.

In the interest of the Movement to Get the Electors to the Polls a Race and Coupling Contest is to be Held in the Foothill City-Cup for Winner.

HOLLYWOOD, Aug. 22.—After a year of bitter experience Hollywood's citizens will again on Monday next have an opportunity to vote on the question of fire bonds. While there is little doubt as to the outcome of the election, still, as the same question

(Theodore Reinis photo.)
E. FOSSLER,
chief of Hollywood fire department, which will have a race and coupling contest in the interest of fire department bonds there Monday.

was lost a year ago through sheer carelessness on the part of voters, the bonds having been lost by just two votes, the volunteer fire department will make a special pull for ballots.

The department is composed of many of the prominent young men of the city and is actively interested in the outcome of the issue. A race and coupling contest have been arranged for that day. The City Trustees at its regular meeting this week voted money to the purchase of a handsome silver cup to be presented to the winning company. Two local firms have also given boxes of cigars as prizes.

The contest will take place Monday afternoon between 4 and 5 o'clock on California and will be a considerable social affair. An already good turnout is expected.

Several coaching parties have been formed by local society dames and it is hoped that there will be a large gathering to witness the skill and endurance to be exhibited by the young girls.

Every year for fourteen years Mrs. Sharpless has held a reception all day, and the youngest in spirit of all the gay things were done in the dining-room two long tables were covered with well-baked cakes contributed by the different branches of the family. One son, Benjamin, and wife are absent in the East, and they were the only ones missing from the festive scene. Those present were William Sharpless and family, and Mrs. Sarah Bunting of Santa Barbara, through Bunker & Wade, house and lot on Poppy avenue; consideration stated, \$300.

Other local estate sales reported are:

E. J. Dickey to Mrs. Talbert of Santa Barbara, through Bunker & Wade, house and lot on Poppy avenue; consideration stated, \$300.

John L. Head to Mrs. L. F. Hamond of Los Angeles, through J. A. Hamond, two lots and small dwelling on East avenue; consideration, \$100.

Venice villas are convenient.

Coronado for tuna fishing.

RESERVOIR BREAKS.

Country About It in Pomona Flooded by the Water Turned Loose.

(By DIRECT WIRE TO THE TIMES.)

LONG BEACH, Aug. 22.—[Excluded Dispatch.] Paul Kamp, a foreman employed by the Pacific Electric, and living on American avenue, received injuries this evening which are likely to prove fatal.

He was on a repair car, acting as trolleyman. Between Compton and Watts he fell from the car which came on to Compton. At that place the trolleyman signalled for Kamp to throw a switch. There being no response, it was discovered that Kamp was missing, and the car was run back toward Watts.

Kamp was found beside the track near Sativa station. A Newport car coming along about that time conveyed him to Willow and a Long Beach doctor came to this city.

His skull is fractured, his brain is wracked and there are other injuries. Kamp is unarranged and is about 25.

"GRANDMA" IS HONORED.

Today was an eventful one for the members of the Sharpless family of Long Beach and Whittier, and they celebrated in old-style fervor and jollity the birthday anniversary of their old-time living representative, Mrs. Lydia Sharpless, a widow, who today completed the ninety-seventh of her saintly pilgrimage.

The reunion took place at the home of her grandson, R. H. Sharpless, at the Elm-street nursery. The home was prettily decorated in the cheery manner of which the Sharplesses are noted, and the plants and ferns made the rooms like a garden scene. Here Grandma Sharpless held a reception all day, and was the youngest in spirit of all the gay things were done in the dining-room two long tables were covered with well-baked cakes contributed by the different branches of the family. One son, Benjamin, and wife are absent in the East, and they were the only ones missing from the festive scene. ELGINORE.

ELGINORE, Aug. 22.—J. C. Ramsdale, superintendent of the Albert's Folly ranch on Grand avenue, expects to harvest about four tons of almonds from 1300 trees this year. There will also be a large olive crop. In former years the crops on the trees have sold as high as \$150 per acre. Mr. Ramsdale is spending a few days in Riverside.

E. Paul and little daughter, who have resided at Elsinore for the past year, left yesterday for their former home in Indiana, where they will re-side.

T. N. Ellis and wife of Downey are about to spend several weeks here.

Prof. J. O. of Los Angeles has been engaged to teach in the High School the coming year. Miss Katherine McIntire will again be assistant principal.

Mrs. J. C. Dalglish and daughter, Jessie, are guests of Mrs. Dalglish's, Mrs. M. McIntire, on Machado street.

Mrs. Henry Jeffries and son of Los Angeles are the guests of Mrs. J. K. Schanck and Mrs. S. A. Stewart. Mrs. Jeffries formerly resided here.

Arriving home, hotel arrivals are: G. P. Groves, Harry Brown, H. M. Meister, Fred Gale, Mrs. George M. Clark, A. M. Widmann, Mrs. C. C. Rutherford, Miss Ella Rutherford, Los Angeles; W. A. Lamont, J. C. Hooker, San Francisco; W. H. Shirley, Huntington Beach; M. Z. and Mrs. San Marzano; G. M. Turner and wife, Pomona; Robert Brown, Whittier; W. S. Bowles, Redlands; L. C. Grinton, Sawtelle; C. M. HEMET.

HEMET, Aug. 22.—The Hemet Milling and Power Company is enlarging its capacity for fuel oil. It has a concrete reservoir in course of construction, which will hold 15,000 gallons.

The Hemet Water Company has completed excavating for a reservoir on the side of Park Hill for the purpose of saving the waste water used at its filtering plant. It will have a capacity of 100,000 gallons.

J. Alfred Jacques and Miss Florence Colburn, both of Hemet, were married in Riverside Tuesday. Mr. James and Miss Colburn come from the East about a year and a half ago; three months ago Miss Colburn went to her former home for a visit. On her return to the West, Mr. Jacques met her at Riverside, where they were married. Mr. and Mrs. Jacques will make Hemet their home.

The Hemet Free Library has just received a large consignment of books from the East.

Good Japanese bungalows at Venice. Cheap R. R. rate to Coronado.

SELLS BURNED STORE.

Contract is Signed in Santa Ana for Conveyance of Building Which Has Just Burned.

SANTA ANA, Aug. 22.—J. A. Holland this morning signed a contract in a local real estate office to sell the store, which had been burned to the ground a few hours before, to N. E. Underwood. At the time the deal was made none of the parties knew that the store had been burned. The store is located at the Fairview Hot Springs, and the consideration of the store was \$2000. The store was burned at 1 o'clock, from causes unknown. It was insured for \$2000. The store was owned by Mr. Collins of Los Angeles. Holland bought the store only a short time ago from P. M. Freeman.

The City Council sitting as a Board of Equalization had considered the public-service corporations having a public-service corporation in the city to appear and show cause why their assessments some previous to the time of the assessment in Ponemon, where a strong movement in the city has passed streets and more moved into the city. They are on their way to the city engineer C. C. Brown, Mayor Lee R. Mattingly and P. F. Firey, Postmaster and P. A. Lee, Street Commissioner. Frank H. Oster and T. A. T. They propose to a new franchise of macadam to the city and to the city of Redlands.

Redlands.

Aug. 22.—Pomona city offices were in Redlands because of the city streets for obtaining some permission in Ponemon, where a strong movement in the city has passed streets and more moved into the city. They are on their way to the city engineer C. C. Brown, Mayor Lee R. Mattingly and P. F. Firey, Postmaster and P. A. Lee, Street Commissioner. Frank H. Oster and T. A. T. They propose to a new franchise of macadam to the city and to the city of Redlands.

THE WEATHER.

COMPARATIVE TEMPERATURES.

	Max.	Min.		Max.	Min.
Boston	80	60	New York	80	60
Washington	80	60	Buffalo	80	60
Chicago	80	60	St. Paul	70	50
St. Louis	80	60	Kansas City	70	50
Honolulu	80	60	Tampa	70	50
Los Angeles	80	60	Tacoma	70	50

The maximum is for day before yesterday; the minimum for yesterday. The mean is the average temperature for the two days.

Yesterday's Forecast and Report.

U. S. WEATHER BUREAU, Los Angeles, Aug. 22.—[Exclusive Dispatch.] Forecast. At 1 p.m. the barometer registered 30.82; at 5 p.m., 30.84. Thermometer for the corresponding hours showed 75 deg. and 72 deg. Relative humidity, 5 a.m., 20 per cent.; 6 p.m., 22 per cent. Wind, 5 a.m., northeast, velocity, 1 mile; 5 p.m., west, 12 miles; "maximum temperature, 82 deg.; minimum, 68 deg. Barometer reduced to sea level.

Weather Conditions.—The pressure has been falling steadily since the last California, and a depression is moving eastward along the British border, being central North of Montana. A high area overrules the north, however, and a second high is entering the Pacific slope from the Washington and Oregon coasts. Thunderstorms are reported from Arizona and Western Texas, and light rain has fallen along the North Atlantic coast, especially in the Lake region, the Ohio Valley and Missouri. The conditions are favorable for more or less cloudy weather in Los Angeles and vicinity during the next thirty-six hours.

Forecast.—Local forecast for Los Angeles and vicinity: Cloudy tonight and Friday.

SAN FRANCISCO, Aug. 22.—It is slightly cooler over all of California, except San Joaquin Valley, where it is about 10 degrees warmer. Cloudiness is increasing over the northern half of the State, also in the Sierras and in Nevada. Thunderstorms have occurred in Northern Arizona. Forecast: Cloudy and variable. Clouds Friday morning; fair during the day; light south wind, changing to fresh west.

San Joaquin Valley: Cloudy Friday; passing showers in the Sierras; light north wind. Los Angeles and vicinity: Fair Friday; light east wind.

YUMA (Ariz.) Aug. 22.—[Exclusive Dispatch.] Gauge height, Colorado River, 30.25 feet; yesterday, 32.20 feet.

Eggs are gradually creeping up. The price of local ranch is pressing and, with continued small arrivals, will bring higher prices.

Chesnuts are quoted, with no immediate stock for shipment.

Grapes were good sellers, prices having declined 25 to 30 cents per box. Under grades were 25¢; top grade, 30¢. Boxed grapes, 25¢; tank and barrel, 30¢. Grapes are on the spot and all varieties of produce changed hands readily at quotations. An abundance of fruit has caused a decline in price. Several kinds of plums were finished their season, were dropped from the market. Fancy fruits were in excellent repair and were in demand.

Fruit is expected to advance in the near future owing to the scarcity and high price of wheat. Millers will be able to meet the supply will come. For the first time in the history of the four trade, domestic mills may be unable to supply the market.

The demand for the finest grade of butter was remarkable. Light receipts of the best were mapped up on arrival.

Prices held very firm.
